# **The European Funding Guide for Researchers & Students in Japan**

**Second Edition**

**Winter 2014/2015**

# Preface

On 29 March, 2011, the European Union-Japan Science and Technology Agreement entered into force and science, technology and innovation become a priority area for EU-Japan cooperation. Subsequent EU-Japan summit meetings have continued to emphasise the importance of unlocking the potential of EU-Japan collaboration and promoting greater cooperation as partners of research and innovation.

Horizon 2020 is the EU's largest ever research and innovation programme with nearly EUR 80 billion of funding available over the period 2014-2020. Horizon 2020 is open to participation from all over the world, including Japan, allowing researchers in Europe to cooperate and work with the best brains across the globe.

In addition to the EU, there exist numerous other programmes in EU Member States, countries associated to Horizon 2020 and Japan, as well as various foundations or multilateral schemes, offering mobility or cooperation opportunities between Europe and Japan.

This booklet lists over 300 such programmes. The sheer range of opportunities in place provides a solid foundation for supporting Europe-Japan research cooperation and exchange.

The booklet aims to help researchers locate grants or funding in order to visit, collaborate and mutually learn from each other. For each programme, the following basic information is presented:

- An overview of each programme
- Organisation in charge
- Eligibility / Nationality
- Duration
- Funding Levels
- Call or Deadline
- Link to further information

This booklet has also been translated into Japanese.

I hope that this information will encourage more cooperation and provide many new opportunities for study, research and collaboration in and between Europe and Japan.

Viorel Isticioaia-Budura

Ambassador Extraordinary and Plenipotentiary,  
Head of the Delegation of the European Union to Japan

Tokyo, December 2014

# About us: EURAXESS Links Japan

EURAXESS Links is a networking and information sharing service for European researchers working outside Europe and non-European researchers wishing to collaborate and/or pursue a research career in Europe.

We provide information about research in Europe, European research policy, opportunities for research funding, for international collaboration and for transnational mobility.

We also focus on networking, information dissemination and practical support to expatriate researchers. EURAXESS Links currently has representatives in North America, Brazil, Japan, India, ASEAN, and China.

In Japan, EURAXESS Links works in close cooperation with the Science and Technology Section of the Delegation of the European Union to Japan. We are based in Tokyo and our goal is to support researchers' mobility and to foster research cooperation between Europe and Japan. We welcome your engagement and feedback.

We provide a regular flow of tailored information for researchers and stakeholders interested or involved in Europe-Japan cooperation through our website, newsletter and social media; including funding and collaboration opportunities, fellowships, research news and developments, job alerts, conferences, workshops and events of interest. We regularly organise events in the form of information and networking platforms, meetings or workshops for researchers based in Japan.

# Introduction

This is the second edition of the “European Funding Guide for Researchers & Students in Japan”.

Following the success of the first edition which came out in 2011/12 and was very well received by the EU-Japan research community, this is a new updated edition with information on the latest schemes that support mobility, research collaboration, and research exchange between Europe and Japan.

The information in the booklet is targeted mainly at those in graduate school at the doctoral level or working as researchers, at postdoctoral or more senior levels. It will also be of interest to those in universities or research institutions responsible for international relations, careers or research administration.

The content includes a brief overview of each scheme, outlining its purpose, research field, eligibility or nationality requirements, application deadline or expected call announcement schedule. The format of the booklet should enable researchers to scan the multitude of schemes that exist and quickly grasp the key aspects of each programme, while more detailed information may be available in our newsletters or on-line content, as well as on each scheme’s webpage.

In addition to the rich array of schemes under Horizon 2020, the document lists funding schemes of EU Member States and Associated Countries. It also lists some Japanese funding schemes open to international researchers, and those offered by other foundations or multilateral schemes.

We aim to provide comprehensive information that will be of interest to:

- Researchers wishing to return to or visit Europe from Japan,
- Researchers wishing to travel to Japan from Europe,
- Researchers looking to locate funding opportunities in Japan,
- Researchers seeking to collaborate with partners either in Europe or Japan

Without restriction on academia level (from PhD student level onwards) or discipline (social sciences and humanities included).

We would like to remind you that the list is by no means exhaustive. New schemes regularly come on board that will not be included in this booklet. The best way to keep informed of all new funding developments is through visiting the EURAXESS Links Japan website which features regular information about funding opportunities and the latest calls.

The handbook was put together by EURAXESS Links Japan in cooperation with the Science and Technology Section of the European Delegation to Japan, EU Member States and countries associated to Horizon 2020. We would like to thank them for their assistance in this project.

We also encourage readers to sign up for our newsletter, distributed electronically each month free of charge, which also features, amongst other items, calls, funding opportunities as well as event announcements.

# Marie Skłodowska-Curie Actions (MSCA)

Individual Fellowship – European	
<b>Outline</b>	European Fellowships are held in EU Member States or Associated Countries. They support international mobility within Europe or into Europe. Individual, transnational fellowships are awarded to the best or most promising researchers based on an application made jointly by the researcher and host organisation in the academic or non-academic sectors. Host organisation must be established in the Member State or Associated Country. Applicants must have a doctoral degree or at least 4 years full-time equivalent research experience.
<b>Research fields</b>	All areas of scientific and technological research (except for areas covered by EURATOM)
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Mobility allowance, living allowance, family allowance, research costs and overheads. Amount depends on the destination country.
<b>Duration</b>	12–24 months
<b>Deadline</b>	September
<b>Web page</b>	<a href="http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/4051-msca-if-2014-ef.html">http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/4051-msca-if-2014-ef.html</a>

Individual Fellowship – Global	
<b>Outline</b>	Global Fellowships are based on a secondment to a third country and a mandatory return period to a European host. Proposals for Global Fellowships involve a single host organisation (future beneficiary = return host) established in a MS or AC. Applicants must have a doctoral degree or at least 4 years full-time equivalent research experience.
<b>Research fields</b>	All areas of scientific and technological research (except for areas covered by EURATOM)
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	Nationals or long-term residents of EU Member States and Associated Countries.
<b>What is funded</b>	Mobility allowance, living allowance, family allowance (researcher unit cost), research costs and overheads (institutional unit cost).
<b>Duration</b>	24 + 12 months (12 months back to Europe)
<b>Deadlines</b>	September
<b>Web page</b>	<a href="http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/4052-msca-if-2014-gf.html">http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/4052-msca-if-2014-gf.html</a>

**Innovative Training Networks (ITN)**

<b>Outline</b>	Innovative doctoral-level training providing a range of skills in order to maximise employability. ITN support competitively selected joint research training and/or doctoral programmes. Partnerships take the form of collaborative European Training Networks (ETN), European Industrial Doctorates (EID) or European Joint Doctorates (EJD).
<b>Research fields</b>	All areas of scientific and technological research (except for areas covered by EURATOM)
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	Partnerships of universities, research institutions, research infrastructures, businesses, SMEs, and actors from different countries across Europe and beyond.
<b>What is funded</b>	The fellowship covers a living allowance (amount depending on the destination country), a mobility allowance and a family allowance (depending on the family situation of the researcher) (researcher unit cost) + research/training /networking costs, management costs and overheads (institutional unit cost)
<b>Duration</b>	4 years; support for eligible researchers 3–36 months.
<b>Call</b>	September
<b>Web page</b>	<a href="http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-itn-2014.html">http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-itn-2014.html</a>

**Research and Innovation Staff Exchange (RISE)**

<b>Outline</b>	The objective of RISE is to promote international and inter-sector collaboration through research and innovation staff exchanges, and sharing of knowledge and ideas from research to market (and vice-versa) for the advancement of science and the development of innovation. The scheme helps to turn creative ideas into innovative products, services or processes. RISE partnership shall be composed by at least three independent participants established in three different countries.
<b>Research fields</b>	All areas of scientific and technological research (except for areas covered by EURATOM)
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	Academic and non-academic organisations from all countries can apply.
<b>What is funded</b>	Individual staff exchanges unit costs to the seconded staff member (covering travel, accommodation etc.) + institutional costs (covering project-research related costs such as lab costs, conferences and workshops + general management and indirect costs). The EU contribution is paid to the coordinator of the project who will then distribute it to the beneficiaries. The beneficiaries and partner organisations are expected to continue paying salary to the seconded staff during their stay abroad.
<b>Duration</b>	Project duration 4 months. Exchanges 1–12 months.
<b>Deadlines</b>	January
<b>Web page</b>	<a href="http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-rise-2014.html">http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-rise-2014.html</a>

COFUND	
<b>Outline</b>	The scheme aims at co-financing fellowship or doctoral programmes with transnational mobility. The EU contribution for the co-funding of regional, national and international programmes shall be used exclusively as contribution to the management of the programme and to the living allowance of the researchers. The collaboration is with a wider set of partners, including from the non-academic sector which may provide hosting or secondment opportunities or training in research or transferable skills.
<b>Research fields</b>	Any
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	Participants submit multi-annual proposals for new or existing doctoral programmes or fellowship programmes that may be run at regional, national or international level. The evaluation is organised in two different panels A) Doctoral programmes (COFUND – DP) and B) Fellowship programmes (CO-FUND – FP). Doctoral programmes address the development and broadening of the research competencies of early-stage researchers. Fellowship programmes fund individual research training and career development fellowships for experienced researchers.
<b>What is funded</b>	Collaboration with a wider set of partners, including from the non-academic sector which may provide hosting or secondment opportunities or training in research or transferable skills.
<b>Duration</b>	Project duration up to 5 years. Researcher recruitment minimum of 3 months.
<b>Deadline</b>	October
<b>Web page</b>	<a href="http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-cofund-2014.html">http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/calls/h2020-msca-cofund-2014.html</a>

## erc European Research Council

ERC Starting Grants	
<b>Outline</b>	The scheme targets promising researchers (2–7 years of experience) since completion of PhD or equivalent who have the proven potential of becoming independent research leaders. Grantee must conduct research and spend at least 50% time in a host institution (public or private) located in an EU Member State or Associated Country. An excellent research proposal is the only criterion for selection.
<b>Research fields</b>	Any
<b>Organisation</b>	European Research Council (ERC)
<b>Eligibility / Nationality</b>	Candidates can be of any nationality, and must have obtained their PhD (or equivalent degree) more than two years but less than ten years prior to the opening date of the relevant call for proposals (at least 50% of time should be spent in Europe).
<b>What is funded</b>	Up to EUR 1.5m (in some circumstances up to EUR 2m).
<b>Duration</b>	Up to 5 years
<b>Calls</b>	Once per year
<b>Web page</b>	<a href="http://erc.europa.eu/starting-grants">http://erc.europa.eu/starting-grants</a>

**ERC Consolidator Grants**

<b>Outline</b>	ERC Consolidator Grants are designed to support researchers who are consolidating their own independent research team or programme. Grantee (with over 7 and up to 12 years of experience since completion of PhD or equivalent and scientific track record showing great promise) must conduct research and spend at least 50% in a host institution (public or private) located in an EU Member State or Associated Country. An excellent research proposal is the only criterion for selection.
<b>Research fields</b>	All
<b>Organisation</b>	European Research Council (ERC)
<b>Eligibility / Nationality</b>	All nationalities (at least 50% of time should be spent in Europe)
<b>What is funded</b>	Up to EUR 2m (in some circumstances up to EUR 2.75m).
<b>Duration</b>	Up to 5 years
<b>Calls</b>	Once per year (deadline 12 March in 2015)

**ERC Advanced Grants**

<b>Outline</b>	Grants for exceptional leaders in terms of originality and significance of their research contribution. Grantees (who must have a track-record of significant research achievements in the last 10 years) must dedicate at least 30% of their time to the research project and spend at least 50% time in the host institution (public or private) located in an EU Member State or Associated Country.
<b>Research fields</b>	Any
<b>Organisation</b>	European Research Council (ERC)
<b>Eligibility / Nationality</b>	All nationalities (at least 50% of time should be spent in Europe)
<b>What is funded</b>	Up to EUR 2.5m (in some circumstances up to EUR 3.5m).
<b>Duration</b>	Up to 5 years
<b>Calls</b>	Once per year
<b>Web page</b>	<a href="http://erc.europa.eu/advanced-grants">http://erc.europa.eu/advanced-grants</a>

**ERC Synergy Grants**

<b>Outline</b>	These grants enable a small group of Principal Investigators (minimum 2, maximum 4) and their teams to bring together complementary skills, knowledge, and resources in new ways, in order to jointly address research problems. The host institution must be located in an EU Member State or Associated Country.
<b>Research fields</b>	Any
<b>Organisation</b>	European Research Council (ERC)
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Up to EUR 15m
<b>Duration</b>	Up to 6 years
<b>Calls</b>	May be one in 2016

ERC Proof of Concept	
<b>Outline</b>	Additional ERC funding scheme for researchers who already got an ERC grant (Starting, Consolidator, Advanced or Synergy) which is either ongoing or where the project has ended less than 12 months before the publication date of an ERC Proof of Concept call.
<b>Research fields</b>	Any
<b>Organisation</b>	European Research Council (ERC)
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Up to EUR 15m
<b>Duration</b>	Up to 6 years
<b>Calls</b>	Once per year with two deadlines (28 May and 1 October in 2015)
<b>Web page</b>	<a href="http://erc.europa.eu/synergy-grants">http://erc.europa.eu/synergy-grants</a>

## Other Horizon 2020 Opportunities

Horizon 2020 Cooperation Research	
<b>Outline</b>	<p>Japanese participation is encouraged in all calls for proposals under Horizon 2020. Through participation in Horizon 2020, researchers in Japan can join international consortia of world class researchers, access knowledge and expertise, research data, and infrastructures.</p> <p>In addition to the principle of the general opening of Horizon 2020 to international cooperation – the EU and Japan are further working together in a targeted, strategic way on a select number of priority areas, such as aviation, aeronautics and ICT. For these priorities, joint calls with a Japanese counterpart may be implemented.</p> <p>Japan is explicitly mentioned in the 2014-15 Work Programme in the fields of environment, food, ICT, materials and new production technologies, transport, and space. You are encouraged to participate with your European colleagues in these and other research areas.</p>
<b>Organisation</b>	European Commission – Horizon 2020
<b>Eligibility / Nationality</b>	Open to all countries
<b>What is funded</b>	Collaborative research projects, networking projects, mobility, international cooperation actions.

### BBSRC David Phillips Scholarship

<b>Outline</b>	For scientists who have demonstrated high potential and who wish to establish themselves as independent researchers.
<b>Research fields</b>	Biotechnology and biological sciences
<b>Organisation</b>	Biotechnology and Biological Sciences Research Council (BBSRC)
<b>Eligibility / Nationality</b>	All nationalities
<b>Duration</b>	5 years
<b>Calls</b>	July
<b>Web page</b>	<a href="http://www.bbsrc.ac.uk/funding/fellowships/david-phillips.aspx">http://www.bbsrc.ac.uk/funding/fellowships/david-phillips.aspx</a>

### BBSRC International Workshops

<b>Outline</b>	Aims to stimulate joint working on topics important to BBSRC's strategy, as well as match numbers of scientists from the UK with other countries to identify common interests & explore potential for international collaboration.
<b>Research fields</b>	Biotechnology and Biological Sciences
<b>Organisation</b>	Biotechnology and Biological Sciences Research Council (BBSRC)
<b>Eligibility / Nationality</b>	All countries, although the US, Canada, Brazil, EU member states, Japan, China, Taiwan, India, South Korea, Australia and New Zealand are particularly encouraged.
<b>What is funded</b>	Around 8 awards each year, of approximately GBP 10,000 each; The workshop can be held overseas or in the UK
<b>Calls</b>	Annual call opens mid-September – mid-November
<b>Web page</b>	<a href="http://www.bbsrc.ac.uk/science/international/international-workshops.aspx">http://www.bbsrc.ac.uk/science/international/international-workshops.aspx</a>

**BBSRC International Scientific Interchange Scheme (ISIS)**

<b>Outline</b>	To help scientists add an international dimension to their BBSRC funded research by making and establishing new contacts with international counterparts.
<b>Research fields</b>	Biotechnology and biological sciences
<b>Organisation</b>	Biotechnology and Biological Sciences Research Council (BBSRC)
<b>Eligibility / Nationality</b>	BBSRC-supported researchers are eligible
<b>What is funded</b>	Short Term Travel Award Normally intended as a first contact-type meeting. Allows researchers to travel outside the UK to initiate collaboration or prepare proposals with partners for international programmes (e.g. Horizon 2020, Human Frontier Science Program). Long Term Travel Award For researchers to travel outside the UK for periods of up to 12 months. Access Award For stays of up to one month in another country to undertake a specific piece of work, access facilities not available in the UK or gain access to new techniques or materials, which would be of benefit to the BBSRC project or the UK research team. Funding is limited to travel and subsistence costs only, and does not usually exceed ~ GBP 5,000.
<b>Duration</b>	Short term and long term travel awards.
<b>Calls</b>	Apply at least 6 weeks before travel

### EPSRC Fellowships

<b>Outline</b>	Fellowships are provided across three different career stages postdoctoral, early and established career
<b>Research fields</b>	Engineering and physical sciences. In particular physical sciences, engineering, ICT, mathematical sciences, manufacturing the future, healthcare technologies, energy, living with environmental change, complexity science, digital economy.
<b>Organisation</b>	Engineering and Physical Sciences Research Council (EPSRC)
<b>Eligibility / Nationality</b>	Any
<b>Calls</b>	Continuously open
<b>Web page</b>	<a href="http://www.epsrc.ac.uk/skills/fellows/">http://www.epsrc.ac.uk/skills/fellows/</a>

### EPSRC Overseas Travel Grants

<b>Outline</b>	Overseas travel grants (OTG) provide funding for international travel and subsistence. Use them to visit recognised centres outside the UK to study new techniques and to travel from the UK to start or develop international collaborations.
<b>Research fields</b>	Engineering and physical sciences
<b>Organisation</b>	Engineering and Physical Sciences Research Council (EPSRC)
<b>Eligibility / Nationality</b>	UK
<b>What is funded</b>	Travel, subsistence and other expenses
<b>Duration</b>	Short term
<b>Calls</b>	Continuously open
<b>Web page</b>	<a href="http://www.epsrc.ac.uk/funding/howtoapply/routes/international/otgs">http://www.epsrc.ac.uk/funding/howtoapply/routes/international/otgs</a>

**ESRC International Co-Investigators Policy**

<b>Outline</b>	Eligible applicants for ESRC funding (which will be based at a UK research organization) are encouraged to include international co-investigators.
<b>Research fields</b>	Social sciences
<b>Organisation</b>	Economic and Social Research Council (ESRC)
<b>Eligibility / Nationality</b>	All researchers based overseas (including UK citizens).
<b>Duration</b>	Up to 30% of ESRC's portion of the project budget can fund directly incurred costs, overseas research assistants and, where necessary, salary costs that are incurred by the international co-investigator.

**Newton International Fellowships**

<b>Outline</b>	Postdoctoral fellowships for researchers from around the world.
<b>Research fields</b>	All
<b>Organisation</b>	British Academy and the Royal Society
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Monthly salary and research budget
<b>Duration</b>	2 years
<b>Calls</b>	February
<b>Web page</b>	<a href="http://www.newtonfellowships.org">http://www.newtonfellowships.org</a>

### Royal Society International Exchanges Scheme

<b>Outline</b>	This scheme is for scientists in the UK who want to stimulate new collaborations with leading scientists overseas through either a one-off visit or bilateral travel. Applicants should possess a PhD.
<b>Research fields</b>	Life and physical sciences, including engineering (excluding clinical medicine).
<b>Organisation</b>	Royal Society
<b>Eligibility / Nationality</b>	UK-based and Japan-based researchers
<b>What is funded</b>	Funding available is dependent upon the length of the visit.
<b>Calls</b>	Throughout the year
<b>Web page</b>	<a href="http://royalsociety.org/grants/schemes/international-exchanges/">http://royalsociety.org/grants/schemes/international-exchanges/</a>

### Sasakawa Butterfield Awards

<b>Outline</b>	Intended to facilitate exploratory exchanges and collaborations between professionals in Japan and the UK.
<b>Research fields</b>	Investigation of scientific, clinical, social and economic aspects of medicine
<b>Organisation</b>	Sasakawa Foundation
<b>Eligibility / Nationality</b>	UK / Japan based researchers
<b>What is funded</b>	Travel expenses
<b>Deadlines</b>	December

## European Research Consortium for Informatics and Mathematics (ERCIM) Alain Bensoussan Fellowships

<b>Outline</b>	Fellowships for PhD holders from all over the world. Fellowships are of a 12 month duration, spent in one of the leading European Research Institutes part of the ERCIM network.
<b>Research fields</b>	Topics cover most disciplines in Computer Science, Information Technology, and Applied Mathematics
<b>Organisation</b>	European Research Consortium for Informatics and Mathematics (ERCIM)
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Monthly salary
<b>Duration</b>	12 Months
<b>Deadlines</b>	April
<b>Web page</b>	<a href="https://fellowship.ercim.eu">https://fellowship.ercim.eu</a>

## European Respiratory Society Short-Term Fellowships

<b>Outline</b>	Research Training Fellowships are established to enable young scientists and clinicians in the early-stages of their research career European country other than the candidate's own.
<b>Research fields</b>	Respiratory medicine/science (MD, MSc, PhD, MD-PhD) or equivalent
<b>Organisation</b>	European Respiratory Society
<b>Eligibility / Nationality</b>	All nationalities
<b>What is funded</b>	Monthly stipend
<b>Duration</b>	1-3 months
<b>Deadlines</b>	April & October

### Human Frontier Science Program Research Grants

<b>Outline</b>	The HFSP supports novel, innovative and interdisciplinary basic research focused on the complex mechanisms of living organisms; topics range from molecular and cellular approaches to systems and cognitive neuroscience and the interactions between organisms. Program Grants are meant to allow teams of independent researchers to develop new lines of research. Postdocs are not eligible.
<b>Research fields</b>	Life sciences / interdisciplinary
<b>Organisation</b>	Human Frontier Science Program (HFSP)
<b>Eligibility / Nationality</b>	International research teams (see country list in call outline)
<b>What is funded</b>	up to USD 450,000
<b>Duration</b>	3 years
<b>Deadlines</b>	March
<b>Web page</b>	<a href="http://www.hfsp.org/funding/research-grants">http://www.hfsp.org/funding/research-grants</a>

### Human Frontier Science Program Career Development Award

<b>Outline</b>	The goal of CDA support is to encourage former HFSP fellows to initiate an original research program in their own laboratories as independent researchers in their home country or in an HFSP member country.
<b>Research fields</b>	Life sciences
<b>Organisation</b>	Human Frontier Science Program (HFSP)
<b>Eligibility / Nationality</b>	For current or former HFSP Long-Term/Cross-Disciplinary fellows
<b>What is funded</b>	Total value is USD 300,000
<b>Duration</b>	3 years
<b>Deadlines</b>	November
<b>Web page</b>	<a href="http://www.hfsp.org/funding/career-development-awards">http://www.hfsp.org/funding/career-development-awards</a>

### Human Frontier Science Program Postdoctoral Fellowships

<b>Outline</b>	HFSP postdoctoral fellowships encourage early career scientists to broaden their research skills by moving into new areas of study while working in a new country. Long-Term Fellowships (LTF) are for applicants with a PhD in a biological discipline, who will broaden their expertise by proposing a project in the life sciences which is significantly different from their previous PhD or postdoctoral work. Cross-Disciplinary Fellowships (CDF) are for applicants with a PhD from outside the life sciences (e.g. in physics, chemistry, mathematics, engineering or computer sciences), who have had limited exposure to biology during their previous training.
<b>Research fields</b>	Life sciences / cross-disciplinary
<b>Organisation</b>	Human Frontier Science Program (HFSP)
<b>Eligibility / Nationality</b>	To work in an HFSP supporting country (see the guidelines)
<b>What is funded</b>	Monthly allowance, research, travel budget.
<b>Duration</b>	3 years
<b>Calls</b>	Summer (pre-registration necessary)
<b>Web page</b>	<a href="http://www.hfsp.org/funding/postdoctoral-fellowships">http://www.hfsp.org/funding/postdoctoral-fellowships</a>

### IIASA Postdoctoral Fellowship

<b>Outline</b>	Every year 4 postdoctoral scholarships are available for research on topics related to the IIASA research agenda.
<b>Research fields</b>	Advanced systems analysis to conduct policy-oriented research into the most pressing areas of global change – energy and climate change, food and water, poverty and equity.
<b>Organisation</b>	International Institute of Applied Systems Analysis (IIASA)
<b>Eligibility / Nationality</b>	All nationalities, preference is given to applicants from member countries of IIASA
<b>What is funded</b>	An allowance for relocation expenses to and from Laxenburg, limited support for monthly business travel, internationally competitive scholarship, health insurance
<b>Duration</b>	2 years
<b>Deadlines</b>	June / December
<b>Web page</b>	<a href="http://www.iiasa.ac.at/">http://www.iiasa.ac.at/</a>

### Kansai Research Foundation for Technology Promotion

<b>Outline</b>	There are two types of grants research grants and international exchange support. Field Energy Recycle and Disaster Prevention.
<b>Organisation</b>	Kansai Research Foundation for Technology Promotion
<b>Eligibility / Nationality</b>	Based at Japanese research institute
<b>Calls</b>	August for research grant; February July for international exchange
<b>Web page</b>	<a href="http://www.krf.or.jp/index1.htm">http://www.krf.or.jp/index1.htm</a>

### Suntory Foundation

<b>Outline</b>	The Foundation offers support for ongoing research activities with international and interdisciplinary significance in such social science and humanities fields as government, economics, society and culture.
<b>Research fields</b>	Social sciences and humanities
<b>Organisation</b>	Suntory Foundation
<b>Eligibility / Nationality</b>	Based at Japanese research institute
<b>Deadlines</b>	April
<b>Web page</b>	<a href="http://www.suntory.co.jp/sfnd/research/index.html">http://www.suntory.co.jp/sfnd/research/index.html</a>

### Takeda Science Foundation

<b>Outline</b>	Research grants for researchers based at Japanese institutions.
<b>Research fields</b>	Life, medical or pharmaceutical sciences
<b>Organisation</b>	Takeda Science Foundation
<b>Eligibility / Nationality</b>	For researchers based at Japanese research institutes
<b>Calls</b>	Various
<b>Web page</b>	<a href="http://www.takeda-sci.or.jp/assist/index.html">http://www.takeda-sci.or.jp/assist/index.html</a>

### SHIONOGI Science Programme

<b>Outline</b>	Supports research for novel target molecules, novel biomarkers or technologies for drug discovery or production.
<b>Research fields</b>	Chemistry, biochemistry, medicine
<b>Organisation</b>	Shionogi & Co., Ltd.
<b>What is funded</b>	Innovative research projects
<b>Calls</b>	Autumn
<b>Web page</b>	<a href="http://www.shionogi.co.jp/ssp/">http://www.shionogi.co.jp/ssp/</a>
