

EURAXESS Republic of Korea

Funding opportunities list

June-July 2018

Dear readers,

["EURAXESS – Researchers in Motion"](#) is a European Commission initiative focused on **researcher mobility and career development**.

Among other activities, **EURAXESS supports individual researchers in finding jobs or funding opportunities** to make their research stay in Europe a reality.

On the [EURAXESS Portal](#), we encourage you to consult the:

- [EURAXESS Job database](#) that lists thousands of vacancies from more than 40 European countries and other regions of the world.
- And the [Funding database](#) allowing you to search for the funding programme you need for your mobility or research cooperation project.

Please note that **individual researchers from Korea** can upload their CVs on the portal, register their searches and create alerts to be informed when a vacancy matching their profile has been published.

Funding organisations, including from Korea can publish their jobs, funding opportunities and scholarships on the portal to increase their visibility and reach the best candidates worldwide.

To help you identify these opportunities, EURAXESS Korea regularly publishes open calls to fund researchers' mobility and cooperation with European teams. This edition is valid for June and July.

The jobs, grants and fellowships announced are **organised by funding organisations (including private ones)**. In section 1, you'll find calls **funded by the European Commission**, and in section 2, calls launched by **individual EU member states or associated countries**. In section 4, you'll find all the calls that were listed in previous editions of this document and that are **still open**.

We remain at your disposal to discuss any queries you may have regarding your mobility projects.

Your EURAXESS Republic of Korea Team

How to use this list of funding opportunities?

1. **Look at the table of contents** to identify the calls that may be relevant to you depending on whether they are incoming/outgoing, open to PhD candidates, post-docs, experienced researchers, are short or long term, the scientific field, , country of destination, etc.
2. **Click on the corresponding page number** to read the full text.
3. If you are eligible, look for **more in-depth information** on the funding organisation's website, by clicking on the hyperlink.

Grants & Fellowships

1 European Union

1.1 [Horizon 2020 – Work programme 2018-2020](#) and List of calls particularly interesting for Korea!

Useful links:

[Horizon 2020 Participant Portal](#).

International cooperation

ALL H2020 calls are open to international and more specifically Korean participation.

For more details on funding of applicants from non-EU countries, click [here](#).

The European Union's Horizon 2020 Work Programme 2018-2020, including preliminary information on all calls to be launched until 2020 has now been published.

SEE [HERE \(PAGES 8 To 14\)](#) FOR CALLS SPECIFICALLY OPEN TO SOUTH KOREA.

[Horizon 2020](#) is the EU funding programme for research and innovation running from 2014 to 2020 with a €80 billion budget. **H2020** supports scientifically-excellent research, innovation, and technological development, through [collaborative and innovative research projects as well as grants and fellowships to individuals](#) set out in the Horizon 2020 work programme. The vast majority of this funding is allocated on the basis of **competitive calls open to applications from researchers, businesses and other interested organisations** located in any of the EU Member States or countries [associated](#) to Horizon 2020.

It is open to the world, so Korean **researchers** and institutions are very welcome to get involved.

The final Work Programme for Horizon 2020 covers the budgetary years 2018, 2019 and 2020, representing an investment of around €30 billion.

Access all open calls on the [Horizon 2020 Participant Portal](#) by entering the Topic ID of the call in the search engine (top-right corner of page).

Organisations from any sector and country, including Korea can participate in H2020 projects. However, **Korean research institutions are not eligible for direct funding** by the European Commission. Please note that **Korean individual researchers are eligible to funding** by MSCA and ERC.

Cooperation with Korea is a particular priority for the EU as the potential to work for mutual benefit in a wide range of areas is especially strong. Therefore, Korean participation is welcomed in all Calls for Proposals under Horizon 2020. The latest Joint Science & Technology Cooperation Committee emphasised the need to deepen, scale up and open cooperation in selected thematic areas of mutual benefit.

These areas include both long-standing common priority areas (5G, IoT, Cloud and AI; nanoelectronics; nanosafety; clean energy innovation; infectious diseases; epigenome research; satellite navigation etc.) and new areas of mutual benefit (antimicrobial resistance; automated driving systems, disaster-resilience and security, polar research etc.), as well as cooperation under schemes for researchers' mobility (ERC, MSCA).

On ERC and Korea:

To date, **5 Korean researchers have been awarded ERC Starting, Consolidator, and Advanced Grants.** Korea (NRF) and ERC have an Implementing Arrangement allowing researchers supported by NRF to perform research stays within ERC teams while still being financially supported by NRF.

Check out our **Guide on how researchers from Korea can benefit from the ERC funding** and cooperation schemes at [EURAXESS Republic of Korea](#)

Participation of team members from Korea:

ERC grants support projects carried out by an individual researcher ('Principal Investigator') in the case of Starting Grants, or 2 to 4 individual researchers (under Synergy Grants) who can employ researchers of any nationality as team members. It is also possible to have one or more team members located in a non-European country. Vacancies for team members of an ERC project can be published on the [EURAXESS Jobs portal](#).

Please also check out our focus on ERC and what's in it for Korean researchers [here](#).

Need help on the ERC?

Ask your national contact points!

For the Republic of Korea: Dr. Hyong-Ha Kim, KRISS; & Mr Man Sok Park, MSIT: [contact info](#)

Please also check [GIP2018 presentations](#)

Find the ERC National Contact Points in Europe [here](http://ec.europa.eu/euraxess).

1.2 ERC Starting Grants – call to be launched in September

European Research Council's (ERC) Starting Grants are designed to support excellent Principal Investigators at the career stage at which they are **starting their own independent research team or programme in all scientific fields.**

ERC Starting Grants in brief:

- For researchers of **any nationality** with **2-7 years of experience** since completion of PhD (or equivalent degree) and scientific track record showing great promise
- **Research must be conducted in a public or private research organisation** located in one of the EU [Member States](#) or [Associated Countries](#) (including Switzerland)
- Funding per grant: **up to € 1.5 million**. An additional € 0.5 million can be made available to cover eligible "start-up" costs for researchers moving from a third country to the EU or to an associated country and/or the purchase of major equipment and/or access to large facilities.
- Duration: **up to 5 years**
- Sole evaluation criterion: scientific excellence of researcher and research proposal
- Calls for proposals: published once a year

ERC open to the world

The ERC strives to attract top researchers from anywhere in the world to come to Europe. To date, the ERC has funded some 7 000 top researchers at various stages of their careers.

Currently, there are **621 principal investigators of non-ERA nationality**, representing 8% of all grantees.

Please, note that ERC grants support projects carried out by an individual researcher ("Principal Investigator") who can **employ researchers of any nationality as team members**. It is also possible to have one or more team members located in a non-European country. Vacancies for team members interested in joining an ERC led research project, can be published on the [Euraxess-Jobs portal](#).

Expected deadline: **17 October 2018**

1.3 ERC Synergy Grants – call to be launched in September

WHAT? European Research Council ERC Synergy Grants are designed to tackle truly bold scientific challenges by funding **groups of 2 to 4 excellent PIs** who jointly address the frontier of knowledge.

WHO? This action is open to **researchers of any nationality** with early achievement or a 10-year track-record who intend to conduct their research activity in any Member State or Associated Country.

Please, note that as from July 2018, Synergy Grant Group can include up to one Principal Investigator based in a third country, including in Korea.

The ERC's frontier research grants operate on a 'bottom-up' basis without predetermined priorities.

ERC Synergy Grants in brief:

- Fund a small group of PIs (2 to 4) with a designated corresponding PI who applies.
- Research projects must tackle ambitious scientific challenges through a unique combination of skills and knowledge of the PIs. Applications must demonstrate that the proposed research cannot be carried out by a single PI working alone.
- Any field of research.
- For researchers of **any nationality** presenting an early achievement track-record or a ten-year track-record
- **Research must be conducted** by all PIs in **public or private research organisation(s)** located in one of the EU [Member States](#) or [Associated Countries](#) (including Switzerland). One PI can be based outside of EU or AC. PIs can apply within the same host institution (HI) or through different HIs.
- Each of the PIs shall spend a minimum of 50% of their total working time in an EU Member State or Associated Country (except the one located out of Europe, if any), and a minimum of 30% of their total working time on the ERC project.
- Funding per grant: **up to EUR 10 million** (in some circumstances up to EUR 14 million)
- Duration: **up to 6 years**
- Sole evaluation criterion: scientific excellence of the proposal
- Calls for proposals: published once a year

Expected deadline: **8 November 2018**

1.4 European Molecular Biology Laboratory (EMBL) Incoming Calls

1.4.1 [International PhD programme](#)

The EMBL International **PhD Programme is Europe's 'best in class' PhD programme for the life sciences**. Two-hundred and forty students from over 40 countries are carrying out PhD research at EMBL at any time.

WHAT: advanced, interdisciplinary training in Molecular Biology and its associated scientific disciplines.

WHO: Applicants of **all nationalities** with a university degree that would formally qualify them to enter a PhD or equivalent programme in their home country.

Registration deadline: **15 October 2018** / Application deadline: **22 October 2018**

1.4.1 [Interdisciplinary Postdocs \(EIPOD\)](#)

WHAT: EIPOD projects capitalise on synergies emerging at the borders of overlapping yet separate scientific fields, and involve transferring techniques to a novel context. The programme is **open to all nationalities and offers about 20 positions annually** (three years funding).

As Europe's only intergovernmental research organisation in life sciences and as a leading laboratory in molecular biology, EMBL is dedicated to promoting excellence in molecular life sciences throughout Europe. One of the best ways to achieve this goal is by inspiring and fostering talented young scientists to turn them into skilled and creative future leaders.

Interdisciplinary is the basis of the EIPOD fellowship programme. As such applications are welcome from **highly motivated fellows interested in moving into a new area of research**. EIPOD fellows are recruited from a wide range of backgrounds including, **biology, chemistry, biochemistry, molecular biology, medicine, engineering, physics, mathematics, computer science and bioinformatics**.

EIPOD is supported by EMBL and Marie Skłodowska Curie Actions dedicated training and career advice.

WHO: Applicants of all nationalities that must have a **PhD** (or 4 years of full-time equivalent research experience) before starting their EIPOD position. Applications from scientists who are currently doing postdoctoral research at another institution are welcome. The only criteria is scientific excellence and interdisciplinary

Deadline: **12 September 2018**

1.5 European Respiratory Society - [Post-doctoral Research fellowships RESPIRE 3](#) (Incoming)

* Long-term residents are considered researchers who spent a period of at least **5 consecutive years (without breaks in research) on full-time research activity** in a one or more MS or AC Researchers who have held refugee status in a MS or AC for at least 5 consecutive years may qualify as long-term residents.

RESPIRE3 is an international, inter-sectorial and inter-disciplinary programme providing Marie Skłodowska-Curie post-doctoral research fellowships to early stage scientists with the potential to become the **leaders of tomorrow in the respiratory field**. It is co-funded by the European Union (EU) and builds on the success of the previous RESPIRE1 and [RESPIRE2 programmes](#).

Fellowship candidates can choose between two options, both offering attractive working conditions and a strong focus on career development:

- 2-year European Fellowships - open to **candidates of any nationality to come to OR move within Europe**
- 3-year Global Fellowships - also now on offer, open to **Nationals or long-term residents* of EU member states or associated countries**, to go to third countries (outside EU), including to Korea.

Candidates from any disciplines can apply with a project in respiratory medicine/science at one of more [100 pre-registered host centres](#) worldwide;

PhD or at least 4 years of full-time research experience, with at least one first author publication;

Host centres from all over the world still have a chance to pre-register through the [Host Online Application Form](#).

Deadline: **1 November 2018**

1.6 UCOM ITN – [Early Stage Researcher Fellowships](#) (Incoming)

MSCA ITN
Innovative Training Networks

The Marie Skłodowska-Curie Action – Innovative Training Networks (MSCA-ITN) is the **main European doctoral training programme**, putting a special emphasis on non-academic sector participation and the innovation dimension.

15 Early-Stage Researcher (PhD) positions to begin in 2018-19, as part of the Innovative Training Network of the European Commission **UCOM “Ultrasound Cavitation in sOft Materials”**. The positions will **all last three years** and will allow all students to participate in an exciting research and training programme, enhancing their career perspectives in both the academic and non-academic sector.

In addition to their individual doctoral projects, all ESRs will benefit from a **dedicated training programme** comprising an integrated curriculum of local and network wide training activities related to the development of scientific knowledge and the enhancement of transferable skills.

The research funded aims to develop state-of-the-art models and to experimentally investigate ultrasound cavitation and cavitation nucleation, with a final goal of harnessing it for the improvement of ultrasound techniques (lithotripsy, histotripsy, drug delivery, etc.) in the biomedical field, surface cleaning methods and devices (shockwave device).

WHO? Applicants:

- Must have Master (or equivalent) degree in **Mechanical or Biofluid Engineering, Physics or Chemistry with solid knowledge of fluid dynamics and its applications;**
- Must be in the first 4 years of his/her research career, measured from the date of graduation (MSc degree or equivalent);
- Should not hold a PhD degree;
- Must be able to communicate fluently in English, in oral and written form.

The project will be coordinated by Prof. M. Gavaises, from the City University of London.

Deadline: **30 September 2018**

1.7 ERCIM – [Alain Bensoussan Fellowships \(incoming\)](#)

ERCIM, the European Research Consortium for Informatics and Mathematics, offers fellowships for **PhD holders from all over the world**. Fellowships are of a 12 months duration, spent in [one of the leading European Research Institutes which makes up part of the ERCIM network](#).

Researchers must have obtained a PhD degree during the last 8 years (prior to the application year deadline) or be in the last year of the thesis work with an outstanding academic record. Nevertheless, before starting the grant, a proof of the PhD degree will be requested. Not only researchers from academic institutions can apply, but also scientists working in industry.

Topics cover most disciplines in **Computer Science, Information Technology, and Applied Mathematics**. (see list of topics covered [here](#))

Deadline: **30 September 2018**

1.8 INTERNATIONAL – Global Young Academy (GYA) Call for New Members

Global Young Academy activities focus on science and policy, the research environment, and science education and outreach. Current flagship projects of the GYA include its Global State of Young Scientists ([GloSYS](#)) Africa research project, co-operation on capacity building Science Leadership Programmes in [Africa](#) and [ASEAN](#), and the emerging project [At Risk and Refugee Scholar Membership Initiative](#).

The Global Young Academy **aims to become the voice of young scientists around the world**. Founded in 2010, the Global Young Academy (GYA) is an international organization of young researchers with members from six continents.

What it means to be a GYA member? Members are **elected for five-year terms**, after which they become alumni. All members are expected to actively contribute to the organisation's goals and activities, e.g. by **participating in international science policy development, promoting the establishment of national young academies (NYA) or coordinating their cooperation and exchange, supporting science education at the international level, or actively collaborating with GYA members on various topics**.

WHO? Applications are sought from **young, independent scholars** who combine the highest level of **research excellence** with a demonstrated **passion for delivering impact**. Applications from women, minority groups, researchers in the social sciences, arts and humanities, and scholars working in government, industry, and non-governmental sectors are particularly welcome. The majority of the GYA's members are **aged 30-40** and the typical period from **completion of a PhD or similar degree is 3-10 years**.

Research fields: The call is open to all scholars working in any research-based discipline, including the sciences, medicine, engineering, social sciences, the arts and humanities.

Deadline: **15 September 2018**.

1.9 [EURAXESS Jobs](#)

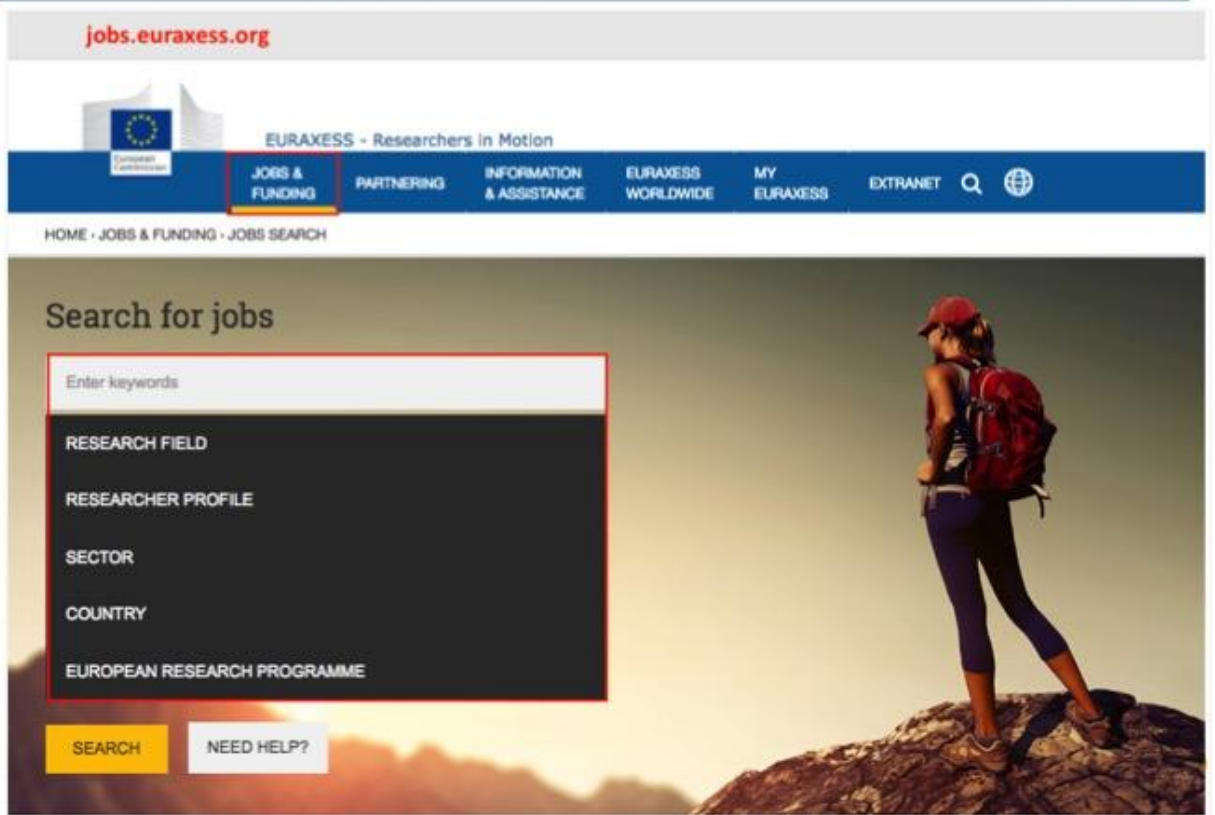

There are currently **around 14169 research job positions** (all over Europe, but also in other countries and in all disciplines) announced on the [EURAXESS Jobs database](#). Opportunities can be viewed by country, level of seniority, field or research or via free text searches.

Please note that these jobs also include **doctoral positions**, including those funded by the Marie Skłodowska Curie Actions (MSCA – ITN & Cofund) and by the European Research Council (ERC).

How to find a research-related job on EURAXESS Portal?

EU

Ju

2 EU Member States and Associated Countries

2.1 National EURAXESS Portals

The latest information on open calls for national grants and fellowships in the 40 member countries of the EURAXESS network can be accessed on the respective **national EURAXESS portals**:

[Austria](#), [Belgium](#), [Bosnia-Herzegovina](#), [Bulgaria](#), [Croatia](#), [Cyprus](#), [Czech Republic](#), [Denmark](#), [Estonia](#), [Faroe Islands](#), [Finland](#), [France](#), [Macedonia](#), [Germany](#), [Greece](#), [Hungary](#), [Iceland](#), [Ireland](#), [Israel](#), [Italy](#), [Latvia](#), [Lithuania](#), [Luxembourg](#), [Malta](#), [Moldova](#), [Montenegro](#), [Netherlands](#), [Norway](#), [Poland](#), [Portugal](#), [Romania](#), [Serbia](#), [Slovakia](#), [Slovenia](#), [Spain](#), [Sweden](#), [Switzerland](#), [Turkey](#), [UK](#).

Find out about all the free services EURAXESS provides to researchers and employers. You can save time and money by using [more than 500 EURAXESS Centres and contact points](#) around Europe to help you with a range of issues including visa requirements, work regulations, taxation and social security.

2.2 BELGIUM (Wallonie-Bruxelles) – [FNRS incoming calls](#)

2.2.1 [FRESH - PhD grants in Social and Human Sciences](#)

FRESH grants are strictly restricted to graduates with an academic education who aim to carry out fundamental research projects with significant societal impact, using tools provided by human and social sciences.

The FRESH Fund supports basic research projects whose outcomes are likely to improve the understanding or functioning of one sector in the society in the short-medium term at a local, regional, national or international level, from many perspectives such as culture, economy, politics, sociology and psychosociology.

The granting of FRESH grants is intended for the completion of the Ph.D. within 4 years.

Eligible applicants are holders of a master degree (obtained max. 7 years ago) in one the many fields below: **Philosophy, Theology, Language and Literature, and Translation Studies History, Art History and Archaeology, Art of Building and Urban Planning, Information and communication, Political and social Sciences, Juridical Sciences, Criminology, Economical and management Sciences, Psychology and Educational Sciences** (except biomedical discipline in the broad sense and the likes), **Arts and Sciences, Human or Social Sciences.**

Deadline: **27 August 2018**

2.2.2 [FRIA: PhD grants in industry and agriculture](#)

Support for the completion of the Ph.D. within 4 years in a university of the French-speaking Community of Belgium in **industry and agriculture.**

Eligible applicants are holders of a master degree (obtained maximum 7 years ago) in one or many fields below: **Art of Building and Urban Planning, Medical Sciences, Public Health Sciences** (except for Human and Social Sciences disciplines and the likes), **Veterinary Sciences, Dental Sciences, Biomedical and Pharmaceutical Sciences, Motricity Sciences, Sciences, except for Tourism Studies and Management and Geographic Sciences (Human or Social Sciences disciplines and the likes), Agronomic Sciences and Biological Engineering, Technology and Engineering Sciences.**

Deadline: **27 August 2018**

2.3 BELGIUM – [Postdoc positions in all research fields \(IF@ULB\)](#)

[IF@ULB](#) is a European postdoctoral programme, COFUNDED by the **Université libre de Bruxelles** and the European Commission within the framework of the **Marie Skłodowska-Curie Actions**.

The programme will enable the Université libre de Bruxelles (ULB) to recruit **63 international postdoctoral researchers** between 2018 and 2023, in **three calls**. At each call, [IF@ULB](#) will offer **21 positions** in one of the ULB research centres.

The positions are **open to researchers in all fields**, according to a bottom up approach. The evaluation procedure will be organised through **three panels: Social Sciences and Humanities, Physical and Engineering Sciences, Life Sciences**. All positions will receive **fellow-related and research-related funding**.

Applicants of any age and of any nationality are eligible.

Eligible applicants are Experienced Researchers, i.e.

- Holders of a PhD degree, with maximum 7 years postdoctoral experience at the date of the call deadline.
- Applicants without a PhD, provided they have documented full-time equivalent research experience of minimum 4 and maximum 11 years prior to the call deadline.

There are no restrictions on scientific domain. A member of ULB academic staff must explicitly accept to supervise and train the applicant to integrate them in their group.

Start of the funded projects: April 2019 - October 2019

Deadline: 15 October 2018

2.4 DENMARK – [PhD positions at the Faculty of Science, University of Copenhagen](#) (TALENT)

The [University of Copenhagen](#) is looking to fill **28 PhD positions within the Doctoral Programme, TALENT at the Faculty of Science, University of Copenhagen.**

The 28 PhD fellowships are in the following fields: **Biodiversity; biological sciences and bioinformatics; chemical sciences; computer sciences; earth and planetary systems sciences; environment, climate and sustainability; food sciences; health and genomics; mathematical sciences, statistics & economics; nano and materials sciences; natural science education; nutrition and sports; particle physics, astro physics and cosmology; plant sciences and biotechnology; quantum sciences and technology; resource economics and global development.** All departments at the Faculty of Science participate in the TALENT programme.

In order to be eligible for the TALENT Doctoral Programme, applicants:

- May not have resided or carried out their main activity (work, studies, etc.) in Denmark for more than 12 months in the 3 years immediately prior to TALENT's call deadline: October 1, 2018. Time spent on obtaining refugee status under the Geneva Convention, compulsory national service and/or short stays such as holidays are not taken into account.
- Must at the TALENT call deadline (October 1, 2018) be in the first four years (full-time equivalent research experience¹) of their research careers and must not yet have been awarded a doctoral degree.
- Must hold a **relevant MSc degree at the time of applying.** However, candidates, who do not hold an MSc degree, are also considered eligible if their credentials and CV equal those achieved on an MSc. This could be in the form of five years of full-time undergraduate and postgraduate education OR four years of full-time undergraduate education combined with relevant courses, fieldwork, scientific publications or conducted research (these aspects must be documented by uploading additional documents as part of the CV).

Deadline: 1 October 2018

2.5 FRANCE – Call for [Collegium de Lyon stays 2019-2020](#) (Incoming)

The Collegium de Lyon selection process is designed to allow for high-level applications and most innovative projects to emerge, while ensuring equality between the applicants, transparency of the process and the respect of the provided data.

The candidates can submit original projects or projects on research themes covered by the [existing scientific collaborations](#). Generally speaking, projects that match one of the three main academic fields of the Université de Lyon's Initiative of excellence (IDEX) - **BioHealth and Society, Sciences and**

Engineering, Humans and Urbanity - may be given preference. Stays are for **5-10 months periods**.

Only applications from **researchers with a permanent or temporary contract at a foreign university or research institution** will be accepted (excluding French research institutions abroad).

Deadline: **30 September 2018**

2.6 FRANCE – [IMéRA and partners calls](#) (Incoming)

IMéRA and its partners are issuing calls in each of the 4 following programmes:

- [Art, Science and Society Programme](#)
- [Mediterranean Programme](#)
- [“Science Meets Humanities” Programme](#)
- [Global Phenomena and Regulation Programme](#)

Each programme is associated with a “white” (or general) call and a set of specific residencies jointly managed by local, national or international partners open to researchers. These specific residencies include **chairs reserved for experienced researchers**.

Interested **researchers, writers or artists** may apply for one programme only. Please indicate the type of residency you are requesting in your application (general programme and/or specific residency).

Applications must be in English or French. Candidates must submit their applications exclusively on IMéRA's website.

Residence schemes (from 3 to 10 months) scheduled between September 2019 and July 2020.

Deadline: **20 September 2018**

IMéRA is an institute for advanced study and a member of RFIEA ([French Network of Institutes for Advanced Study](#)) and NETIAS ([Network of European Institutes for Advanced Study](#)).

Each year IMéRA receives around twenty researchers and artists (residents), all international. These resident researchers and artists are selected after an evaluation procedure with the most stringent international standards, shortlisting of applications and external evaluators.

The Pays de la Loire is experiencing a powerful growth phase both demographically and socio-economically. In order to consolidate this dynamic in a sustainable manner, our region is prioritizing development of research. Having learned from our solid experience in terms of hosting innovative projects in the region and relying on a rich and mature ecosystem, it is now time for us to welcome new talents. “Connect Talent” is the name of this ambitious programme that will thus enable our region to maintain its characteristic lead.

2.7 FRANCE (Pays de la Loire) - [“Connect Talent” International Call for Applications](#) (Incoming)

The “Connect Talent” international call for applications is designed to provide **support for breakthrough projects**, i.e. projects whose ambitions and potential are aimed at meeting one or more of the major scientific or technological challenges of our times in a disciplinary field or in a cross-disciplinary logic, and whose social and economic impacts over the medium and long term are unquestionable.

This call for applications is aimed at operations to attract researchers and research professors and is intended for **leading international scientists**, alone or with a team, with a view to accelerating the development of an existing topic that is considered as strategic in the region, in particular **production technologies, healthcare, the sea, plants, foodstuffs, as well as cross-cutting topics in digital technologies, electronics and the human and social sciences**.

The “Connect Talent” call for applications gives priority to **having this leading scientist set up for the long term at a laboratory in the Pays de la Loire region**. Projects will have to have a duration of **3 to 5 years**.

A leading scientist means **a researcher with unquestioned international recognition** (quality and dynamics in terms of scientific production, number of citations, scientific distinctions – notably from the European Research Council, the team’s or the scientific leader’s international openness, scope of existing industrial relations, etc.). Check the laureates [here](#).

Deadline: **1 October 2018**

2.8 GERMANY (DAAD) Research Grants – Doctoral Programmes open to Korea (incoming)

DAAD research grants provide young foreign academics and scientists with an opportunity to carry out research and continue their education in Germany. The grants also promote the exchange of experience and networking amongst colleagues.

The aim of this grant programme is to support doctoral projects in Germany.

Eligibility: Excellently-qualified young academics and scientists who have completed a **Master's degree or Diploma**, or in exceptional cases a Bachelor's degree at the latest by the time they begin their grant-supported research.

Doctoral programmes at a state or state-recognised institution of higher education or a non-university research institute in Germany:

- individual projects under the supervision of a university teacher or academic adviser, or
- participation in a structured doctoral study programme

Duration: a maximum of **four years**;

Grants are initially awarded for a maximum of one year. Extensions depend on whether the selection committee considers the previous award period to have been successfully completed.

For doctoral projects in Germany that require several years of research, research phases outside Germany can be supported if these are critical for the successful completion of the doctoral degree. Planned stays must be specified in the application in the work and time schedule and should not exceed a quarter of the anticipated total funding period.

Funding

Depending on academic level, monthly payments of:

- € 1,200.- for doctoral candidates
- Payments towards health, accident and personal liability insurance cover
- Travel allowance, unless these expenses are covered by the home country or another source of funding
- One-off research allowance

Deadline: **15 October**

2.9 GERMANY – DAAD scholarships in Arts and architecture (Incoming)

The German Academic Exchange Service DAAD grants provide young foreign academics and artists with an opportunity to continue their education in Germany. There are funding programmes for various qualification phases and stages in a career. The aim of this programme is to promote artistic cooperations with German host institutions.

2.9.1 Postgraduate scholarships

DAAD awards scholarships for **postgraduate courses in Germany** at public or recognised German colleges in the following areas: **Architecture, Music, - Performing Arts / Dance and Fine Arts / Cinema / Design.**

Students who are in the last year of graduation, enrolled in a university in one of the participating countries, and also recent graduates with a **bachelor's degree or a master's degree** can apply for the scholarship. The objective is to facilitate additional studies in the mentioned areas, with the possibility of obtaining or not an academic title in a German institution of higher education.

The DAAD portal opens registrations six weeks before the deadline. Those selected will receive monthly scholarships for a period of 10 to 24 months, depending on the course chosen, as well as airfare and health insurance.

The application deadlines in each area are as follows:

- [Architecture](#): **30 September 2018**
- [Music](#): **15 October 2018**
- [Performing Arts / Dance](#): **31 October 2018**
- [Arts / Film / Design](#): **30 November 2018**

DAAD
Deutscher Akademischer Austausch Dienst
German Academic Exchange Service

Check out the DAAD funding database [here](#)! Here you can find information on various kinds of DAAD funding for foreign students, graduates and postdocs as well as on funding offered by [other selected organisations](#)

2.10 GERMANY – [FRIAS COFUND Fellowship Programme](#) (FCFP) (Incoming)

The FCFP call for applications is co-financed by the European Union through the **Horizon 2020** research and innovation programme “**Marie Skłodowska-Curie Action**, People, Co-funding of regional, national and international programs (**COFUND**)” and the State of Baden-Württemberg. The rules and ethical principles for Horizon 2020 and the state regulations apply.

The Freiburg Institute for Advanced Studies (FRIAS) is offering **Individual FCFP fellowships** for the academic year 2019-20:

- **Junior fellowships** (completed PhD plus one to six years of post-doctoral experience)
- 12 month fellowships between September 1, 2019 and September 30, 2020
- **Senior fellowships** (completed PhD plus a minimum of six years of post-doctoral experience or a tenured professorship or equivalent permanent position)
- 3 to 10 month fellowships between September 1, 2019 and September 30, 2020

Up to **25 FCFP fellowships** are available to researchers **regardless of their nationality and field of research**.

Fellowships of **3 to 10 months in the Senior scheme** and of **12 months in the Junior scheme** may be applied for. They will allow researchers to conduct their own research projects. FRIAS offers the opportunity for FCFP Junior Fellows to prolong the fellowship for up to three months for secondments in and collaboration with non-academic partner institutions in Freiburg and the region. Junior Fellows must apply for this option eight months into their fellowship.

Applications are welcome from all disciplines that can be supported at the University of Freiburg. Applicants are encouraged to learn about the University of Freiburg's profile of particular research strengths (www.uni-freiburg.de/forschung-en).

Deadline: **15 September 2018**.

AGRICULTURE AND FOOD DEVELOPMENT AUTHORITY
With an annual budget of €190 million, Teagasc combines research excellence in the areas of **food and agriculture** with a dedicated farmer extension/advisory service (45 000 farmer clients) and a department dedicated to technology transfer to the food industry (250 client companies). The Teagasc annual research portfolio comprises some 300 research projects, carried out by 500 scientific and technical staff in seven research centres throughout Ireland.

2.11 IRELAND – [Teagasc Research Leaders 2025](#) Postdoctoral Fellowship programme

Teagasc is the Irish agriculture and food development authority. It has been awarded funding by the European Commission under the Horizon 2020 Marie Skłodowska-Curie Actions to co-fund a research fellowship scheme. The aim of this programme is to **train the next generation of research leaders in agriculture and food research** to underpin the objectives of the [Food Wise 2025](#) strategy. The programme will have two funding calls; each funding up to 10 fellowships (total 20 fellowships).

Applicants must be in **possession of a doctoral degree or have at least four years of full-time equivalent research experience**.

The programme offers applicants the opportunity to conduct their research in an academic or non-academic organisation of their choice worldwide (outside of Ireland) for 18 months (outgoing phase), followed by a return phase to Teagasc (Ireland) for 18 months. If the outgoing phase is with an academic host, they may choose to incorporate a secondment for up to six months (as part of either the outgoing or return phase) to a non-academic secondment host of their choice.

The content of the research proposal must relate to at least one of the four Teagasc programmes: **Animal and Grassland Research and Innovation; Crops, Environment and Land Use; Food; Rural Economy and Development**. Applications of an interdisciplinary/multidisciplinary nature are strongly encouraged

The award is made to the individual fellow and will result in a **36 month contract of employment with Teagasc**. Complete call available [here](#).

Deadline for receipt of Expression of Interest: **1 October 2018**

2.12 IRELAND – [Collaborative Research Fellowships for a Responsive and Innovative Europe CAROLINE](#) (Incoming / outgoing)

CAROLINE is a **research fellowship** scheme with international, intersectoral and interdisciplinary mobility elements. The aims of the fellowships are to **support suitable highly qualified experienced researchers in any discipline** to:

- conduct research relevant to the overarching theme of global sustainable development as set out under the [United Nations 2030 Agenda](#) for shared economic prosperity, social development, and environmental protection;
- engage in international collaboration with suitable NGOs or IOs;
- experience and benefit from international mobility;
- avail of relevant training and career development opportunities;
- increase their chances of gaining a future senior research position, including in the non-academic sector.

The Irish Research Council Marie Skłodowska-Curie Actions (MSCA) COFUND Postdoctoral Fellowship Programme “Collaborative Research Fellowships for a Responsive and Innovative Europe” will provide experienced researchers with an opportunity to obtain a prestigious research mobility and career development fellowship.

The Council offers two types of 24 months CAROLINE fellowships :

- Irish fellowships
- International fellowships

All fellowships must commence on 1 June 2019.

WHO? Applicants should have completed a Ph.D. degree or have 4 years of full-time equivalent research experience. All nationalities are eligible.

Deadline: **6 September 2018**

2.13 LUXEMBOURG – [ATTRACT programme for Postdoc, Junior & Established Researchers](#) (Incoming)

The ATTRACT programme is designed for **researchers not yet established in Luxembourg**, who demonstrate the potential to become leaders in their field of research. The scheme offers promising junior researchers the opportunity to **set up their own research team** within one of the country’s research institutions.

Researchers are **eligible between 2 and 8 years after their PhD**, they must have an **outstanding track record in their field** which has to fit strategically to the research agenda of the Luxembourg host institution.

Host institutions offer candidates the prospect of developing an own research line. ATTRACT fellows are offered individual coaching and a career track towards a tenured position.

Proposals selected under the ATTRACT programme have a lifespan of **five years**. The financial contribution by FNR can be up to **EUR €1.5 or €2 millions** for ‘Starting Investigators’ or ‘Consolidating Investigators’, respectively.

Deadline for the pre-proposal: **15 November 2018**

2.14 LUXEMBOURG – [2018 PEARL Call for proposals for leading researchers](#) from abroad

PEARL funding to enable the recruitment of three renowned scientists to Luxembourg. PEARL candidates should be leaders in the field, innovative, creative and possess an outstanding track record that will strengthen Luxembourg's position in the international world of R&D.

WHAT IS FUNDED: PEARL projects have a financial contribution of between 3-4 M EUR by the FNR. The financial contribution can be used flexibly to implement the research programme at the host institution.

DURATION: PEARL projects have a lifespan of five years .

ELIGIBILITY: Proposals must be submitted jointly by the candidate and the host institution, but PEARL also allows for the submission of a proposal where the candidate is still to be recruited. This is reserved for particularly strategic positions within a host institution (e.g. Head of Department) only.

Deadline : **16 October 2018**

2.15 NETHERLANDS - [LEaDing Fellows Programme](#) (Incoming)

This project receives co-funding from the European Commission within the framework of the **Marie Skłodowska-Curie Actions**.

The LEaDing Fellows Programme provides 90 researchers from all over the world **who recently obtained a PhD**, with the opportunity to gain two years of work experience establishing their own research programme in research projects embedded in the three universities and their **medical centres**. The programme offers **30 Postdoc Fellowships in Medical Sciences**.

Researchers in this project work together in nanotechnology, nano-biology, quantum physics, biotechnology, nanotechnology and bio-nanoscience, chemistry, mathematics and computer science, with interuniversity research groups operating at the forefront of research.

WHO? Applicant should have **obtained their PhD before the recruitment date** and **less than 60 months prior to the recruitment date**. This application window can be extended with 6 months for pregnancy (per child), parental leave (max. 6 months per child), training for medical specialists (3 years) or compulsory and reserve military service (actual time). Evidencing documentation must be added to the application as an annex.

For this call the **recruitment date (start of the project) is set on the 1st of May 2019**.

Call opening on 1 September 2018 with a **deadline on 31 October 2018**.

2.16 SPAIN – [TECNIOspring PLUS fellowship programme](#) (Incoming & Outgoing)

The programme provides financial support to **individual mobility proposals** presented by **experienced researchers in liaison with a company based in Catalonia** with at least 4 employees or a TECNIOcentre. The duration of the fellowships is **2 years**.

Experienced researchers applying to this action need to develop a **research project with focus on technology transfer**. The fellowship is expected to be part of a structured, long-term personal career development plan that is coherent with past achievements and clearly defines the future aims of the researcher.

Applicants must have experience in applied research and/or technology transfer activities (R&D projects involving companies, patents licensing or spin offs).

Types of fellowships TECNIOspring PLUS programme offers **two different fellowships**:

- **Outgoing + return**: for experienced researchers of any nationality, willing to join a research or technology centre or R&D department of a private company located outside Spain for one year. This scheme includes a return phase of one more year to a Catalan company or a TECNIO entity.
- **Incoming**: for researchers of any nationality willing to join a Catalan company or a TECNIO entity for two years.

Deadline: **28 September 2018**

2.17 SPAIN – [ICFO International PhD Program](#) (Incoming)

The fellowships are offered in the scope of different **fellowships programs**:

The *ICFOstepstone Program*, a Marie Skłodowska-Curie-COFUND action under the European Union's Horizon 2020 research and innovative programme (GA 713729), awarding

INCOMING Fellowships to outstanding graduate students.

Marie Curie Early-Stage Researcher position for ITN project "ZULF NMR-Zero- and Ultralow-Field Nuclear Magnetic Resonance" www.zulf.eu.

ICFO is offering **up to 8 PhD-fellowship positions** to well-qualified graduate students, who wish to **obtain a doctoral degree in any of the research topics covered at ICFO**.

WHO? The International PhD Fellowship Programme welcomes applications from **individuals with a Master's degree in a field of science and engineering related to the ICFO research activities**.

Fellowships will be offered across all ICFO research groups in the following research topics:

- Biophysics & Biomedical Optics
- Optical Sensing, Optoelectronics & Photovoltaics
- Nonlinear Optics, Ultrafast Optics & Atto-Physics
- Nanophotonics, Optomechanics & Nanomechanics
- Experimental Quantum Optics & Quantum Information
- Theoretical Nanophotonics, Quantum Optics & Quantum Information

Researchers can browse the website for details about **ICFO Research Groups and Group Leaders** at <https://www.icfo.eu/lang/research>. In the group profile, they will also see specific available PhD-projects in that particular group (application should be formalized through this present general call with the corresponding selection process applicable). If they are interested in discussing possible research topics, they should contact ICFO Group Leaders directly.

In addition, internal ICFO PhD group positions might become available, for which they may retain candidates applying to this present call.

Deadline: **16 September 2018**

2.18 SLOVAKIA – [National Incoming and Outgoing Scholarships](#)

The National Scholarship Programme of the Slovak Republic (NSP) supports **study/research/teaching/artistic mobility of foreign students, PhD students, university teachers, researchers and artists** at higher education institutions and research organisations in Slovakia.

The scholarship shall cover scholarship holders' living costs (accommodation, board, etc.) during their stay in Slovakia with an allowance between 350 and 1000€ /month. Duration of stay: 1-2 semester (students), 1-10 months (researchers, teachers, artists)

NSP also supports also mobility of students and PhD students studying at Slovak higher education institutions (or in case of PhD students, students studying at external education institutions, e.g. the Slovak Academy of

Sciences) with a permanent residence in Slovakia at higher education institutions and research organisations abroad.

The next application deadline is **31 October 2018**.

2.19 SWEDEN – [Postdoctoral Scholarship Programme in Mathematics \(incoming / outgoing\)](#)

The Knut and Alice Wallenberg Foundation in collaboration with the Royal Swedish Academy of Sciences support Swedish research in mathematics.

The program includes several parts:

- [Nomination of guest professors](#)
- [Postdoctoral Scholarship Program in Mathematics for researchers from outside Sweden](#)
- [Postdoctoral Scholarship Program in Mathematics for researchers with a Swedish doctors degree](#)

Deadline: **5 October 2018**

2.20 SWEDEN (Västra Götaland) – [Mobility for Regional Excellence 2020 programme](#) (Incoming)

The Mobility for Regional Excellence Programme 2020 (MoRE2020) shall contribute to the following objectives: Attract internationally experienced researchers to **Västra Götaland** and increase international exchanges; Promote researcher mobility and career development for researchers; Position internationally competitive research and innovation milieus; Stimulate international research and innovation alliances and collaboration; and strengthen research-driven clusters within prioritised areas.

WHO? MoRE2020 targets **experienced researchers who are either in possession of a doctoral degree or have at least four years of full-time equivalent research experience**. The application is submitted jointly by the researcher and the employing **research and innovation (R&I) milieu** located within the borders of Västra Götaland. Therefore, **the applicant to MoRE2020 is both the experience researcher and the R&I milieu in Västra Götaland**.

Eligible research and innovation milieus are universities, science parks, research institutes and university hospitals.

Research areas prioritised by Region Västra Götaland: Sustainable transport solutions • Life science • Green chemistry • Marine environment and the maritime sector • Urban development • Material sciences • Sustainable production • Information and communication technologies • EnergyTextile/Fashion/Design • Cultural and creative industry • Food production/Agriculture and forestry • Tourism

Successful applicants to MoRE2020 will be awarded a **12 month grant for the proposed research project**. The project must be completed no later than 24 months after the applicant has received the official decision from Region Västra Götaland. **Grants will be awarded in January 2019**.

Deadline: **1 October 2018**.

MoRE2020 is the continuation of the successful MoRE programme, co-financed under [Horizon 2020](#).

2.21 SWITZERLAND – [Swiss Government Excellence scholarships for foreign scholars 2019-2020](#) (Incoming)

Schweizerische Eidgenossenschaft
Confédération suisse
Confederazione Svizzera
Confederaziun svizra

More information on **study or research opportunities** at Swiss institutions can be found at the following websites:

<http://www.swissuniversities.ch/en/>
<http://www.studyinginswitzerland.ch/>
<http://www.proff.ch/search.hierarchy.school.do?lCode=en>

The programme enables selected applicants to undertake a **PhD / Post-doctoral / research stay** from **all academic fields** at one of the 10 Swiss cantonal universities, the two Swiss federal institutes of technology or public teaching and research institutes.

Call open to citizens of more than 180 countries, including Korea. The selection is under the responsibility of the relevant national authorities and/or **the Swiss diplomatic representation of the student/researcher's country of origin.**

3 categories of calls:

- **PHD Scholarships**

VALIDITY: The scholarship is only valid for full-time PhD studies in Switzerland. It is not valid for mixed PhD programmes (part time in Switzerland and part time in another country).

DURATION: 3 years maximum (starting in September)

AMOUNT: The scholarship amounts to a monthly payment of CHF 1920. Tuition fees are waived. For non-EU and non-EFTA grantees only: mandatory Swiss health insurance is paid by the FCS. Non-European grantees receive a lump sum for their airfare (provided at the end of the scholarship).

Special CHF 300 housing allowance (paid once at the beginning of the scholarship). One-year half-fare public transportation card. Support services and various trips, dinners and sightseeing tours organised for Swiss Government Excellence Scholarship holders.

ELIGIBILITY CRITERIA: Hold master's degree or equivalent university degree recognised by the Swiss university. Check the age restrictions.

- **Postdoctoral Scholarships**

Some details of this call are similar to the scholarship described above. For more details check the specificities according to your country of nationality.

- **Research scholarships**

Some details of this call are similar to the scholarship described above. For more details check the specificities according to your country of nationality.

Deadline: 10 November 2018.

2.22 SWITZERLAND – [Swiss National Science Foundation \(SNSF\) Ambizione](#) (incoming)

FONDS NATIONAL SUISSE
SCHWEIZERISCHER NATIONALFONDS
FONDO NAZIONALE SVIZZERO
SWISS NATIONAL SCIENCE FOUNDATION

Based on a government mandate, the [Swiss National Science Foundation \(SNSF\)](#) supports scientific research in all academic disciplines, from history to medicine and the engineering sciences. At the end of 2017, the SNSF was funding 5800 projects involving 16,000 researchers, which makes it the leading Swiss institution for promoting scientific research.

Ambizione grants are aimed at young researchers who wish to conduct, manage and lead an independent project at a Swiss higher education institution. The scheme supports young researchers **both from Switzerland and abroad**. Scientists holding non-professorial academic positions at higher education institutions are also eligible to submit an application.

An Ambizione grant covers the grantee's salary and the funds needed to carry out the project. An Ambizione project grant, however, comprises only project funds. The grants are awarded **for a maximum of four years**.

Participation requirements include:

- Applicants must hold a Doctorate (PhD) or have completed their medical studies (Staatsexamen or equivalent exam).
- Applications may be submitted no later than four years after completing the doctorate (PhD). The date of the examination, respectively the defence of the doctoral thesis is the relevant date.
- Applicants who have completed their medical exam and have done clinical work for at least three years after completing their studies (specialist certification by the FMH is an advantage) may submit an application no later than 9 years after completion of the medical exam.
- Research activities of at least 12 months after the doctorate (PhD), respectively after the medical exam undertaken at an institution different from the one where the doctorate was obtained, respectively the medical degree was received.

Deadline: **1 November 2018**

2.23 SWITZERLAND – [ETH Zurich Postdoctoral Fellowships Programme](#) (Incoming)

Program supported under FP7: This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under the grant agreement 608881 (2015-2019).

The programme supports **incoming fellowships for postdoctoral researchers at the ETH Zurich**. The program is intended to foster high-potential, young researchers who have already demonstrated excellence in terms of internationally competitive achievements in the early stages of their professional careers.

Applications have to be **made jointly by the candidate and their host who must be an ETH Zurich Professor and who will act as a mentor of the fellow**. The duration of an ETH Fellowship is **two years** and cannot be prolonged.

Applicants must have **defended their doctoral degree within two years of the submission deadline** from an institution other than the ETH Zurich or the University of Zurich.

Next deadline: **1 September 2018, 1 March 2019**

2.24 UK – [Ernest Rutherford Fellowship](#)

The Ernest Rutherford Fellowships will enable **early career researchers** with clear leadership potential to establish a strong, independent research programme. They will encourage talented researchers in UK universities to **remain in the country** and at the same time **attract outstanding overseas researchers to the UK**.

Each Fellowship will last for **five years**, with up to 12 being offered annually. The aim is to support future scientific leaders to establish a strong, independent research programme.

Ernest Rutherford Fellowships are intended for **early career researchers who do not have an academic position**.

Fellowships are open to applicants of any nationality. Where applicable, you will need to comply with Department of Employment requirements and hold a work permit prior to taking up the Fellowship.

Deadline: **20 September 2018**

2.25UK – Chevening awards

A Chevening award offers full financial support whilst also giving access to a wide range of exclusive academic, professional, and cultural experiences.

Chevening awards are funded by the UK Foreign and Commonwealth Office and partner organisations.

2.25.1 Chevening [scholarships](#) (master's, incoming)

Chevening Scholarships are awarded to individuals with strong academic backgrounds and demonstrable leadership potential to pursue a **one-year Master's degree programme in any subject at any UK university**.

Applicants from Korea can choose any course of study at any UK higher education institution, when selecting your field of study please refer to the UK priorities in your country.

2.25.2 Chevening fellowships (incoming)

Chevening Fellowships are awarded to talented mid-career professionals who have already demonstrated their capacity to lead and influence. Chevening Fellows are active in their field or subject and are looking to further enhance and expand their knowledge, skills, and expertise by spending time in the UK on a fully-funded short course or research project.

More information [here](#)

Deadline: **6 November 2018**

2.26UK - [Fully Funded Queen Mary University of London Chevening Partner Awards in Law](#) , MA (Incoming)

Applications are invited for Chevening Partner Awards for **Law** to study one-year **master degree programme**. These awards are available for students from developing countries, including **Korea**.

Queen Mary works closely with the Chevening – the UK government's international scheme aimed at developing global leaders – to provide a large number of full scholarships for the study on our one-year master courses.

Course Level: Awards are available to study 1 year Master degree programme.

Study Subject: Awards are available within the School of Law.

Funding: All Chevening awards cover full overseas tuition fees, as well as providing a stipend for living costs, air-fares, and a variety of other expenses. Chevening Scholars also benefit from a year-long programme of events helping you experience the best of British culture and to make the most of your time in the UK.

Number of Scholarships: 2

EURAXESS Republic of Korea Funding Opportunities
|| August-September 2018

Deadline: 6 November 2018

3 Calls still open

3.1 European Union

[ERC Advanced Grants](#): long-term funding to pursue ground-breaking high-risk projects. Up to **€2.5-3.5 million per grant for up to 5 years**. Sole evaluation criterion: scientific excellence of researcher and research proposal. For more details on Advanced grants, see [ERC website](#). Deadline: **30 August 2018**.

[European Innovation Council \(EIC\) prize for Early Warning Epidemics](#): €5 million prize to find the best solution for setting up an early warning system for epidemics. open to all legal entities (i.e. natural or legal persons, including international organisations) or groups of legal entities. Deadline: **1 September 2020**.

[European University institute \(Italy\) - incoming fellowships in social sciences and humanities](#): 10 to 24 month fellowships for post-docs, divided in: [Fernand Braudel Senior Fellowship](#), [Max Weber Fellowships for junior post-docs](#) and [Jean Monnet Post-Doctoral Fellowship](#). Deadlines between **30 September and 25 October**.

[European Southern Observatory \(ESO\) fellowships and studentships: Postdoctoral Fellowships](#) for outstanding early-career scientists to further develop their independent research programmes in **Astronomy** for 3-4 years. Deadline **15 October 2018**. [ESO Studentship Programme](#) is open to students enrolled in a university Ph.D. programme, preferentially but not necessarily in an ESO member state in astronomy or related fields. Next Deadline: **15 November 2018**

[CERN fellowship programmes](#): open to graduates (from Master's until post-doc) from universities or technical institutes studying applied sciences, computing or engineering (related to **nuclear research**). Deadline: **3 September 2018**.

[EMBO Long-Term Fellowships](#) to support up to **two years postdoctoral research visits** to laboratories (Molecular Biology) throughout Europe and the world (no restriction). Deadline: 2 cut-off dates on the **second Fridays of February and August**

[MSCA Co-Funding of regional, national and international programmes \(COFUND\)](#): call open to European research (funding) institutions. **Korean organisations** can be partner organisations in a proposal. **Korean researchers**: COFUND positions advertised on the [EURAXESS job portal](#) (PhD) or by the funding organisations (postdoc). Deadline: **27 September 2018**.

[Marie Skłodowska-Curie Individual Fellowships \(IF\)](#) for postdoctoral mobility of researchers within (**European Fellowships**) and beyond Europe (**Global Fellowships**) Deadline: **12 September 2018**.

[European Innovation Council \(EIC\) Horizon Prize: Affordable High-Tech for Humanitarian Aid](#): **rewarding the best, proven, cost-effective, tech-based solutions for Humanitarian Aid** and will amount to **€5m**; **open to all legal entities** Deadline for registration of interest: **15 September 2019**

[Erasmus+ Joint Master Degrees](#) (JMD) are offered by an **international consortium of higher education institutions**. Students from anywhere in the world at **master's level can apply for these degrees** and one of the approx. **15 student and 4 guest lecturers scholarships**. **Deadlines: various** (depending on each consortium's rules for application. Most consortia will require applications to be submitted between October and January, for courses starting the following academic year.)

3.2 EU Member States and Associated Countries

AUSTRIA – [ÖAW offers 38 000 Euros PhD Fellowship](#) for all nationalities and in all areas of research (including outgoing mobility). Open to **doctoral candidates** of all ages writing their **thesis at an Austrian university. No deadline for submission.**

AUSTRIA – [Marietta Blau PhD Grant \(Outgoing\)](#): 6-12 months of a doctoral programme at Austrian universities in **Natural Sciences**. Monthly grants of 1500 Euros; Next application deadline: **1 September 2018**.

AUSTRIA - [Institute of Science and Technology call for professors](#) for internationally accomplished scientists in all areas. Deadlines: **On-going for Professor applications.**

AUSTRIA - [Lise Meitner Programme for Scientists from Abroad](#). WHO: Highly qualified scientists of any discipline with an invitation from an Austrian research institution. Applications accepted continuously, **no application deadlines.**

AUSTRIA – [Erwin Schrödinger Outgoing Fellowship](#) (Outgoing) including a return phase. Post-doctoral fellowships at **leading foreign research institutions** for young and especially highly qualified post-doc scientists of any discipline. Applications accepted continuously, **no application deadlines.**

BELGIUM - [BAILLET LATOUR Health Prize Call for nominations](#): personal award intended to recognize outstanding scientific achievements in **biomedical research** for the benefit of human health. Deadline: **30 September 2018**.

BELGIUM (Wallonie-Bruxelles) – **Incoming doctoral and postdoctoral scholarship for Excellence [IN.WBI](#) in a University of Wallonia-Brussels** in Transport and logistics; Mechanical engineering; Life sciences; Agro-industry; Aviation-space; Environmental technologies. Deadline: **1 October 2018**(short-term stays)

BELGIUM (Wallonie-Bruxelles) – **Outgoing doctoral and postdoctoral scholarship for Excellence [WBI.World](#)** to follow a **doctorate or postdoctorate programme** in a university abroad. Deadline: **1 October 2018**(short-term stays)

BELGIUM (Wallonie-Bruxelles) - [Ulysse incoming Mobility \(Incoming\)](#) For a highly qualified researcher to lead a research team at Wallonie-Bruxelles Federation (WBF) university. Employment contract for 3 years. Deadline: **rolling basis.**

BELGIUM (Wallonie-Bruxelles) - [F.R.S.-FNRS Post-doctoral temporary incoming fellowship*](#) (up to 3 years) for a non-Belgian PhD holder (with maximum 6 years of experience). Deadline: **rolling basis**

BELGIUM – [FWO outgoing mobility opportunities.](#) Grants supporting international contacts between research groups.

- [Travel Grants for Short Stays Abroad \(Max. 1 month, outgoing\)](#)
- [Grant for participation in a conference abroad](#)
- [Grant for participation in a workshop or course abroad](#)
- [Travel Grants for Long Stays Abroad](#) (31 days to 12 months) for researchers affiliated with a university in the Flemish community or belong to the scientific staff (of the Dutch-speaking community) of a federal or Flemish scientific institute.

Deadline for all grants: **no later than 3 months prior to the departure date.**

DENMARK - [Industrial PhD and post doc Programmes \(Incoming\)](#). In both project types the candidate is employed in a private company and enrolled at or collaborates with a public sector research organisation. Deadlines for Industrial

The Erwin Schrödinger programme is co-funded by the European Union.

Wallonie - Bruxelles
International.be

Postdoc and reg. Industrial PhD: **25 September 2018**; Public sector Industrial Researcher projects: **9 October 2018**

ESTONIA - [Mobilitas Pluss Support for study visits and training abroad](#) for 100 researchers to attend international training events of both ETAg and its partners abroad. Deadline: **Continuous**

ESTONIA – [Dora Plus programme \(incoming / outgoing\)](#). **Outgoing**: Support to short-term study mobility for Master's students and doctoral students from higher education institutions in Estonia. **Incoming**: Foreign Master's students and doctoral students for short-term teaching and research work in Estonia (1-10 months). Applications: **On-going**

FINLAND - [EDUFI fellowships \(incoming\)](#) open to PhD students who will be doing their Doctorate (or Double Doctorate) at a Finnish university. Visiting PhD students and researchers who are doing their Doctorate degree at a foreign university can also be eligible. The scholarship period may vary from **3 to 12 months**. Applications accepted on a **rolling basis**.

FINLAND - [CIMO Fellowships](#). WHO? **Young doctoral level students and researchers from all countries and from all academic fields. No application deadline.**

FRANCE - [INRIA International Chairs \(Incoming\)](#). Funding for high-level researchers that have their main professional activity outside of France and can commit to spending 12 months divided in at most 5 periods during the chair. Deadline: **30 September 2018**

FRANCE – [AXA Chairs](#). For institutions located within countries [where the AXA Group has insurance operations \(Korea included\)](#) ; **€120 000** per year for 5 years. Deadline for requesting a slot : 24 October 2018 & **deadline for application submission : 22 November 2018**

FRANCE – INRIA [The "Internships" Programme \(Incoming\)](#): Research training experience for students from all over the world; **Undergraduate, masters or PhD students** come and spend a few months in an Inria research team; **2-6 months** with fixed remuneration around **500€ per month**. Deadline: check on website

FRANCE – [15 Postdoctoral Fellowships on Biology and Information Technologies](#) open to all nationalities at the French Atomic and Alternative Energies Commission (CEA). **No specific application deadline**: The positions are open until they are filled by appropriate candidates.

GERMANY - [Postdoctoral Researchers International Mobility Experience \(P.R.I.M.E.\)](#) open to all nationalities, who see their long-term career perspectives in Germany. Funding is provided through an 18-month temporary job position at the selected German University, in which 12 months have to be spent abroad and 6 months (re-integration phase) at a German university. Deadline: **31 August 2018**

GERMANY - [Doctoral scholarships from the Friedrich Naumann Foundation \(Incoming\)](#): For socially engaged doctoral students of **any nationality, in all disciplines and of any age**. Deadlines: **31 October 2018**

The AXA Research Fund supports basic science dedicated to a better understanding of global risks related to: **Environmental risks, Life risks, Socio-economic risks, "The Fourth Industrial Revolution"**.
