Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter and Code)

In accordance with the decision of its Council of Administration, the **University of Agronomic Sciences and Veterinary Medicine of Bucharest** renews its agreement upon the principles and requests presented in The European Charter for Researchers and in The Code of Conduct for the Recruitment of Researchers, strongly believing that implementing these principles of the Charter and Code will contribute to attract the most outstanding researchers within the European Research Area and beyond.

We would like to mention that ever since the year of 2005 when the above mentioned documents and their principles were launched, the standards stipulated within this documents have been included in our research related procedures and activities. We therefore welcome the opportunity of internal analysis in the framework of the HRS4R and aim at embedding this process in the wide array of current activities in our institution's human resources policy.

Taking all of this into consideration, we express our wish to strongly get involved in this process and to renew our endorsement of the Charter and Code and to also express our commitment to implement the HRS4R process for our full and fast integration in this endeavor.

RECTOR,
Professor Sorin Mihai CIMPEANU
