Endorsement of the European Charter for Researchers and the Code of Conduct for the Recruitment of the Researchers (Charter and Code)

Wrocław Medical University welcomes and fully supports the Recommendation of the European Commission on the European Charter for Researchers and the Code of Conduct for the Recruitment of the Researchers (hereinafter referred as The Charter and Code).

As Rector of Wrocław Medical University, I hereby declare that Wrocław Medical University recognises the value of the Charter and Code principles and commits itself to implement them via the Human Resources Strategy for Researchers (HRS4R) in accordance with respective national and internal legislation.

The underlying principles of the Charter and Code are in line with the current institutional strategy and practices of our University, aiming to increase our attractiveness to researchers by offering them a stimulating research environment, improving and maintaining better employment and working conditions and supporting international mobility.

Wrocław Medical University strongly believes that implementing the principles of the Charter and Code will enhance the quality of research and innovation, strengthen international cooperation among researchers and research institutions and contribute to further development of the European Research Area.
