Endorsement of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers (Charter & Code) and Notification of commitment to implement the HRS4R process

UC Leuven-Limburg (UCLL), represented by Pieter Willems, director UCLL Research and Expertise and Ann Rutten, Head of Human Resources, endorses the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

We promote applied research and scientific activities, are guided by international quality standards and commit ourselves to interdisciplinarity and knowledge transfer. Research activities of UCLL are continuously further developed and international networking is intensified and expanded.

UCLL will embed the Human Resources Strategy for Researchers (HRS4R) into the corporate and HR strategy with the aim to encourage open and diversified career development for researchers. We strongly believe that implementing these principles of the Charter and Code will contribute to further develop the European Research Area.

Kind regards,

Pieter Willems
