Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter and Code)

IMol welcomes and supports the initiative of the European Commission to ensure a supportive research environment for researchers on mobility. Having endorsed the 40 principles of the Charter and Code, we notify you about our commitment to implement these principles in our institution via the Human Resources Strategy for Researchers (HRS4R).

IMol is a newly established research institute, and we see this as an opportunity to introduce best practices from the very beginning of its functioning. Therefore, we welcome the possibility of internal analysis in the framework of the HRS4R and aim to implement this process in a wide array of current activities in our institution's human resources policy.

By implementing the Charter and Code principles, IMol aims to attract the most outstanding researchers within the European Research Area and even worldwide.

Sincerely,

Magda Konarska
