Resolution of the Plenary Assembly of CRASP of 12 May 2006 on The European Charter for Researchers and on The Code of Conduct for the Recruitment of Researchers

The Plenary Assembly of the Conference of Rectors of Academic Schools in Poland (CRASP) welcomes an increasing interest the European Commission is showing towards research, and – in particular – towards university-based research.

A majority of guidelines contained in the Charter and in the Code have for a long time been a basis for the development and organisation of research system at the Polish universities. The Plenary Assembly of CRASP recommends its member institutions and their organisational units to make even stronger commitment to implementation of these guidelines.

The Assembly authorises the President of CRASP to take an appropriate action to include CRASP in the list of the Charter and Code undersigning organisations.

President of CRASP
