# Horizon Europe

## Europe open to the U.S.

- Research cooperation for U.S.-based researchers in the form of **European Research Council (ERC) grants** and **Marie Skłodowska-Curie Actions (MSCA) fellowships**.
  - Bottom-up projects
  - ERC's sole evaluation criterion is **excellence**
  - MSCA's criteria are **excellence**, **impact**, and **quality and efficiency of the implementation**

# European Research Council (ERC) grants

- **ERC Synergy Grants (ERC SyG)**
  - Enabling 2-4 Principal Investigators and their teams to bring together complementary skills, knowledge, and resources in new ways, in order to address ambitious research problems.
- **ERC Starting Grants (ERC StG)**
  - Supporting excellent Principal Investigators starting their own independent research team or program
- **ERC Consolidator Grants (ERC CoG)**
  - Supporting excellent Principal Investigators consolidating their own independent research team or program
- **ERC Advanced Grants (ERC AdG)**
  - Supporting excellent Principal Investigators at the career stage at which they are already established research leaders with a recognized track record of research
- **ERC Proof of Concept Grants (ERC PoC)**
  - Supporting holders of an ERC frontier research grant to verify the innovation potential of ideas arising from their ERC-funded project

## Marie Skłodowska-Curie Actions (MSCA) fellowships

- **Doctoral Networks (DN):** Research training of doctoral candidates
- **Postdoctoral Fellowships (PF):** Career development of Postdocs
- **Staff Exchanges (SE):** Cooperation by means of staff exchange
- **Co-funding** of regional, national, and international programs (**COFUND**): Co-Funding of Doctoral or Fellowship Programs
- **MSCA and Citizens:** Pan-European Researchers' Night to promote research careers

## Bilateral cooperation

- For collaborative research projects, U.S. researchers **bring their own funding to the project**. In exceptional cases, U.S. entities may be entitled to funding **when this possibility is mentioned in the relevant calls for proposals** or in cases where the U.S. partner is essential to the project. This is typically the case in calls related to health research.
  - This is due to the U.S.'s status as a Third Country
  - Low- and middle-income countries are automatically eligible for funding
- Third Country entities can join European partners
