EURAXESS Worldwide:

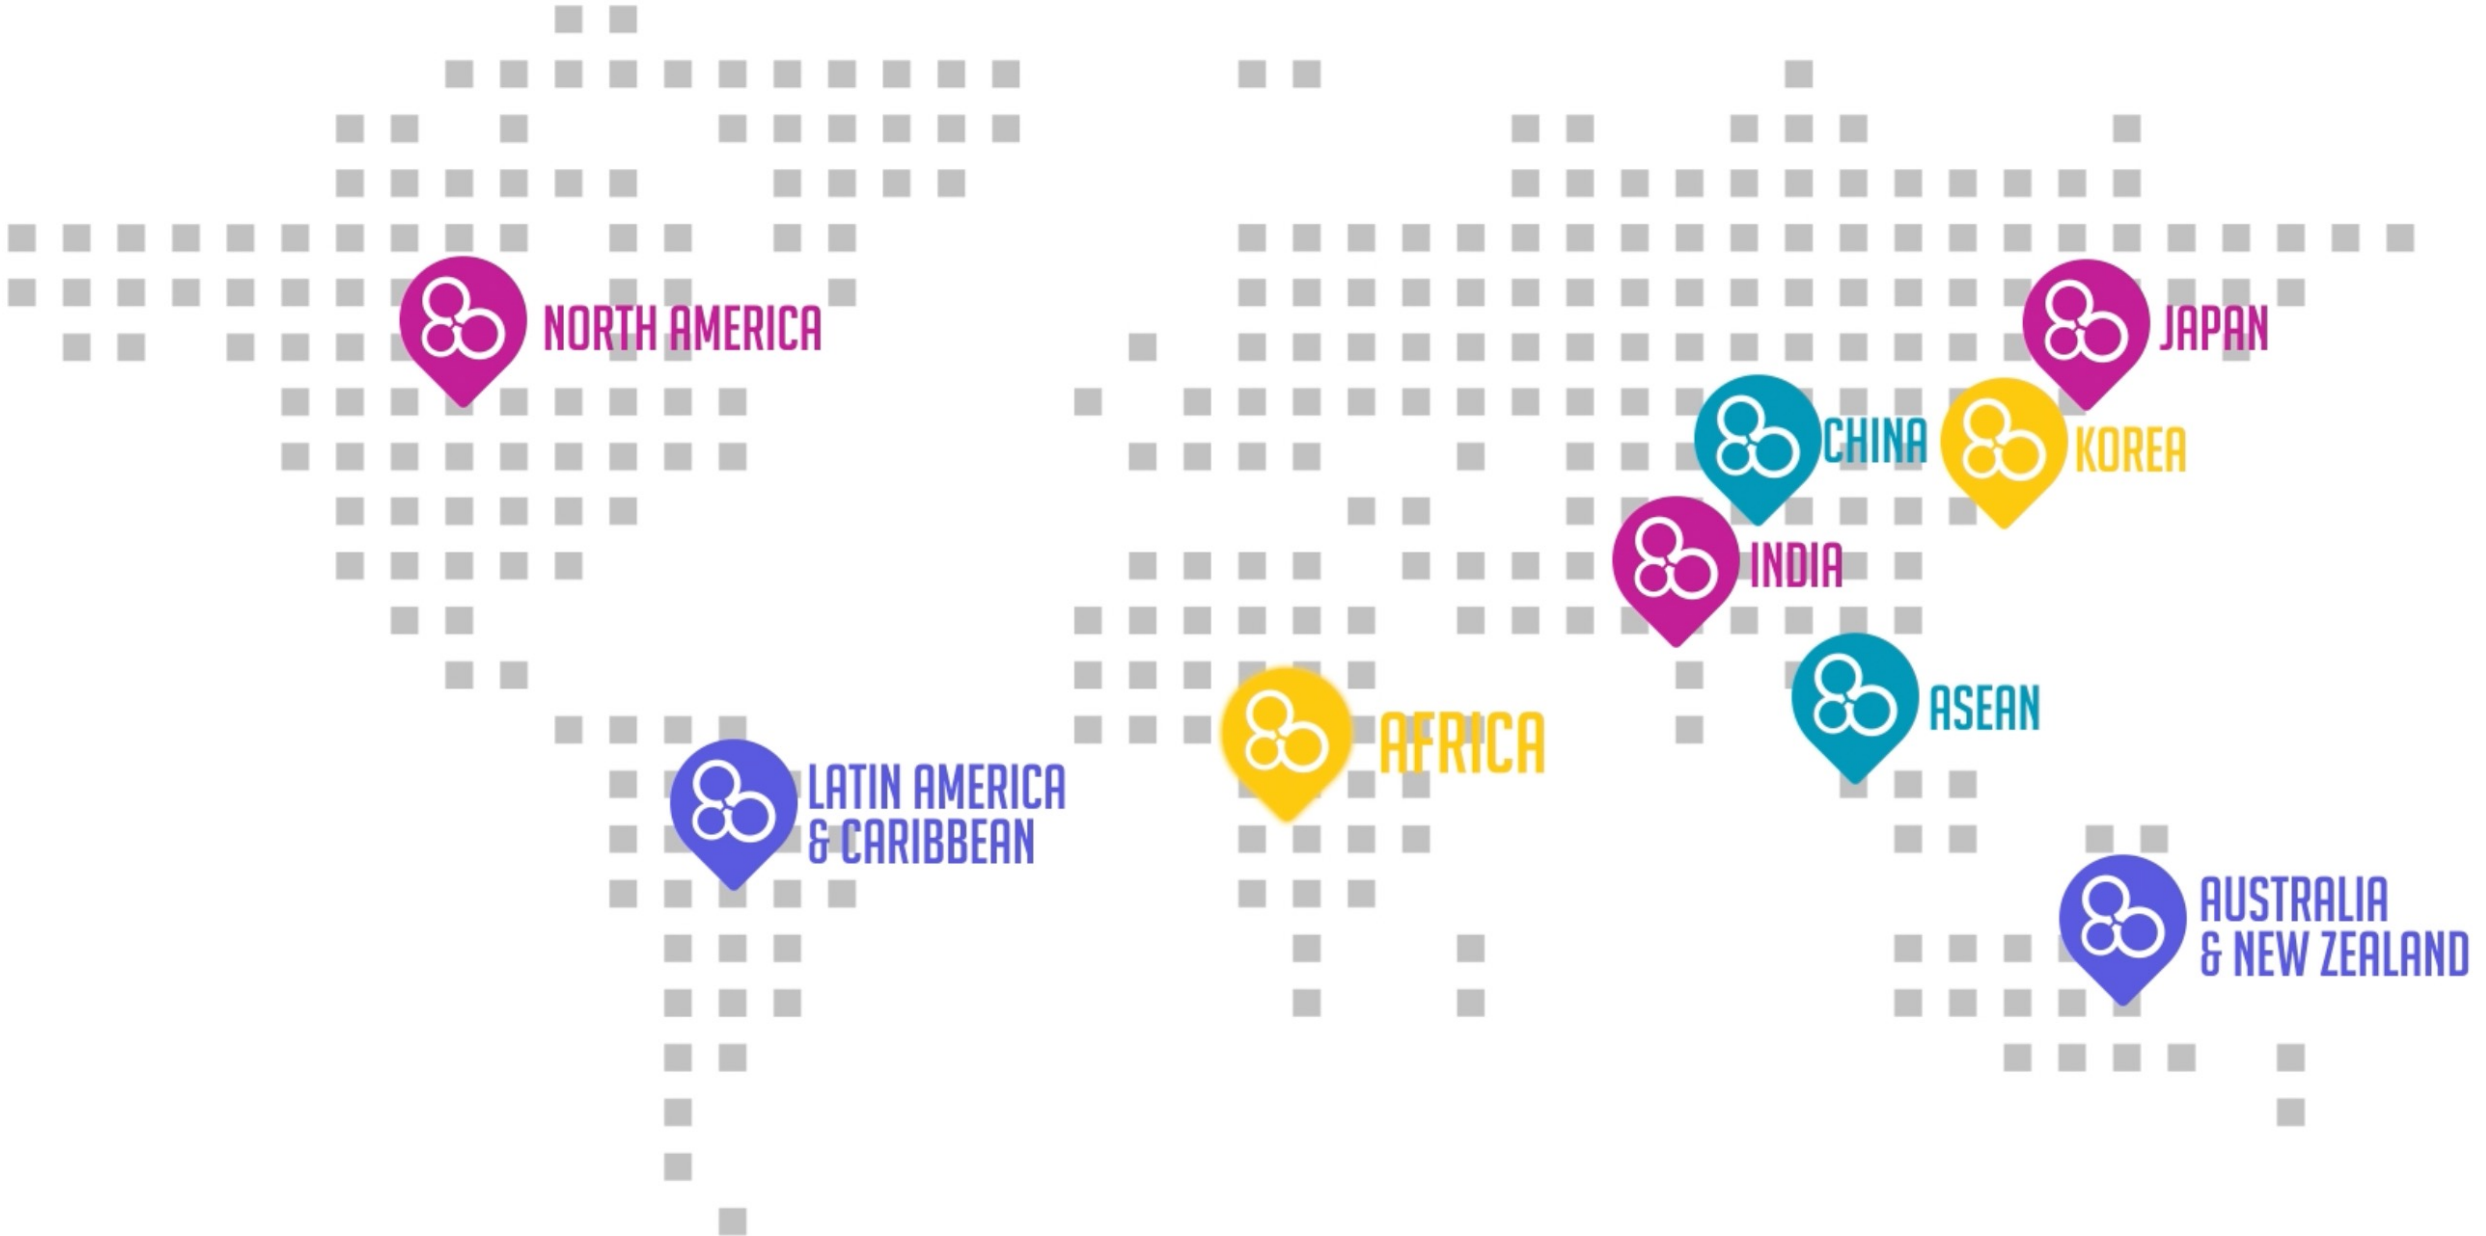

- EURAXESS is an initiative of the European Commission established with the aim to provide **free access to information** about research in Europe, **opportunities for research funding, international collaboration** and trans-national mobility.
- It **links researchers** in WW to Europe.
- Furthermore, the network is open to **all nationalities** and **research fields**.

The main tasks of EURAXESS Africa are :

- 1- **Management and development of the EURAXESS Africa network:** This includes building **partnerships** with **African research institutions** and **organizations**, as well as **promoting researcher mobility** between Africa and Europe.
- 2- **Support for African researchers:** This includes **providing information, advice and assistance** to African researchers who are interested in pursuing their careers in Europe, as well as supporting the career development of African researchers who are already working in Europe.

3- Promoting European research opportunities in Africa: This includes **raising awareness of European research opportunities** among African researchers and research institutions, as well as supporting the participation of African researchers in European research projects (**Pillar 1 & 2 in Horizon Europe – Africa Initiative II**)

4- Reinforce the **networking with all R&I African actors** : This includes organizing **events and activities that promote networking and collaboration** between African and European researchers, as well as facilitating the exchange of information and expertise between the two regions.
