

I-Hub Foundation for Cobotics (IHFC)

IHFC has four major Activities :

1. Research & Development - Grand Projects which are Product Oriented
2. International Collaborations - NSF,USA joint Funding
3. Skill Development
4. Startup Funding

Our scope of technologies listed below but are not limited to

1. Blockchain
2. Nanorobotics
3. Autonomous Vehicles

We operate in Four Verticals :

1. Healthcare
2. Defence
3. Agriculture
4. Industry 4.0

Two upcoming specialized centers :

1. Medical Cobotics Center (MCC) with Human Patient Simulator (HPS) system and AR/VR systems for training the Doctors on Emergency and OT and Engineers to develop medical products.
2. Drone Technology Park (DTP) an ecosystem for Validation, Testing and Pilot training.
