How to create your pitch presentation

Guidelines for participants Instructions for flash presentation

Project idea

- Project proposal title (if decided)
- Topic to be addressed: Optimize complementary treatment to battle drug resistant TB.
- Project description: We have compounds from three different molecular groups that have pharmacologic properties and
- Current collaborations with ex Professor Rajni Hatti-Kaul
- Profile of the partners sought: we are looking for partners in pharmacology, chemistry, nanomaterials or synthetic biology that could help us to fine tune the compounds and bring them closer to clinic.
