

# What is the EEN?

- The **Enterprise Europe Network (EEN)** is the world's largest support network for SMEs with international ambitions. Created by the **EU Commission**, the network comprises 470 partner organizations in 69 countries.
- EU Commission owns the platform and provides overall management of the **Partnership Database**.
- **EEN Canada** supports Canadian SMEs and other innovation stakeholders such as universities in finding European innovation partners by connecting them through the **EEN Partnerships Database** of over 5,000 company profiles.
- It provides companies with expert advice and strategically designed templates to help create, upload, and promote their company profiles through the database.
- Interested European stakeholders can respond to the profiles with an **Expression of Interest** by contacting their local EEN contact point.
- The goal is to enhance **innovation, technology development, and business success** through international collaboration and partnership building.
