**Let's first  
meet a bit  
more..**

# Horizon Europe

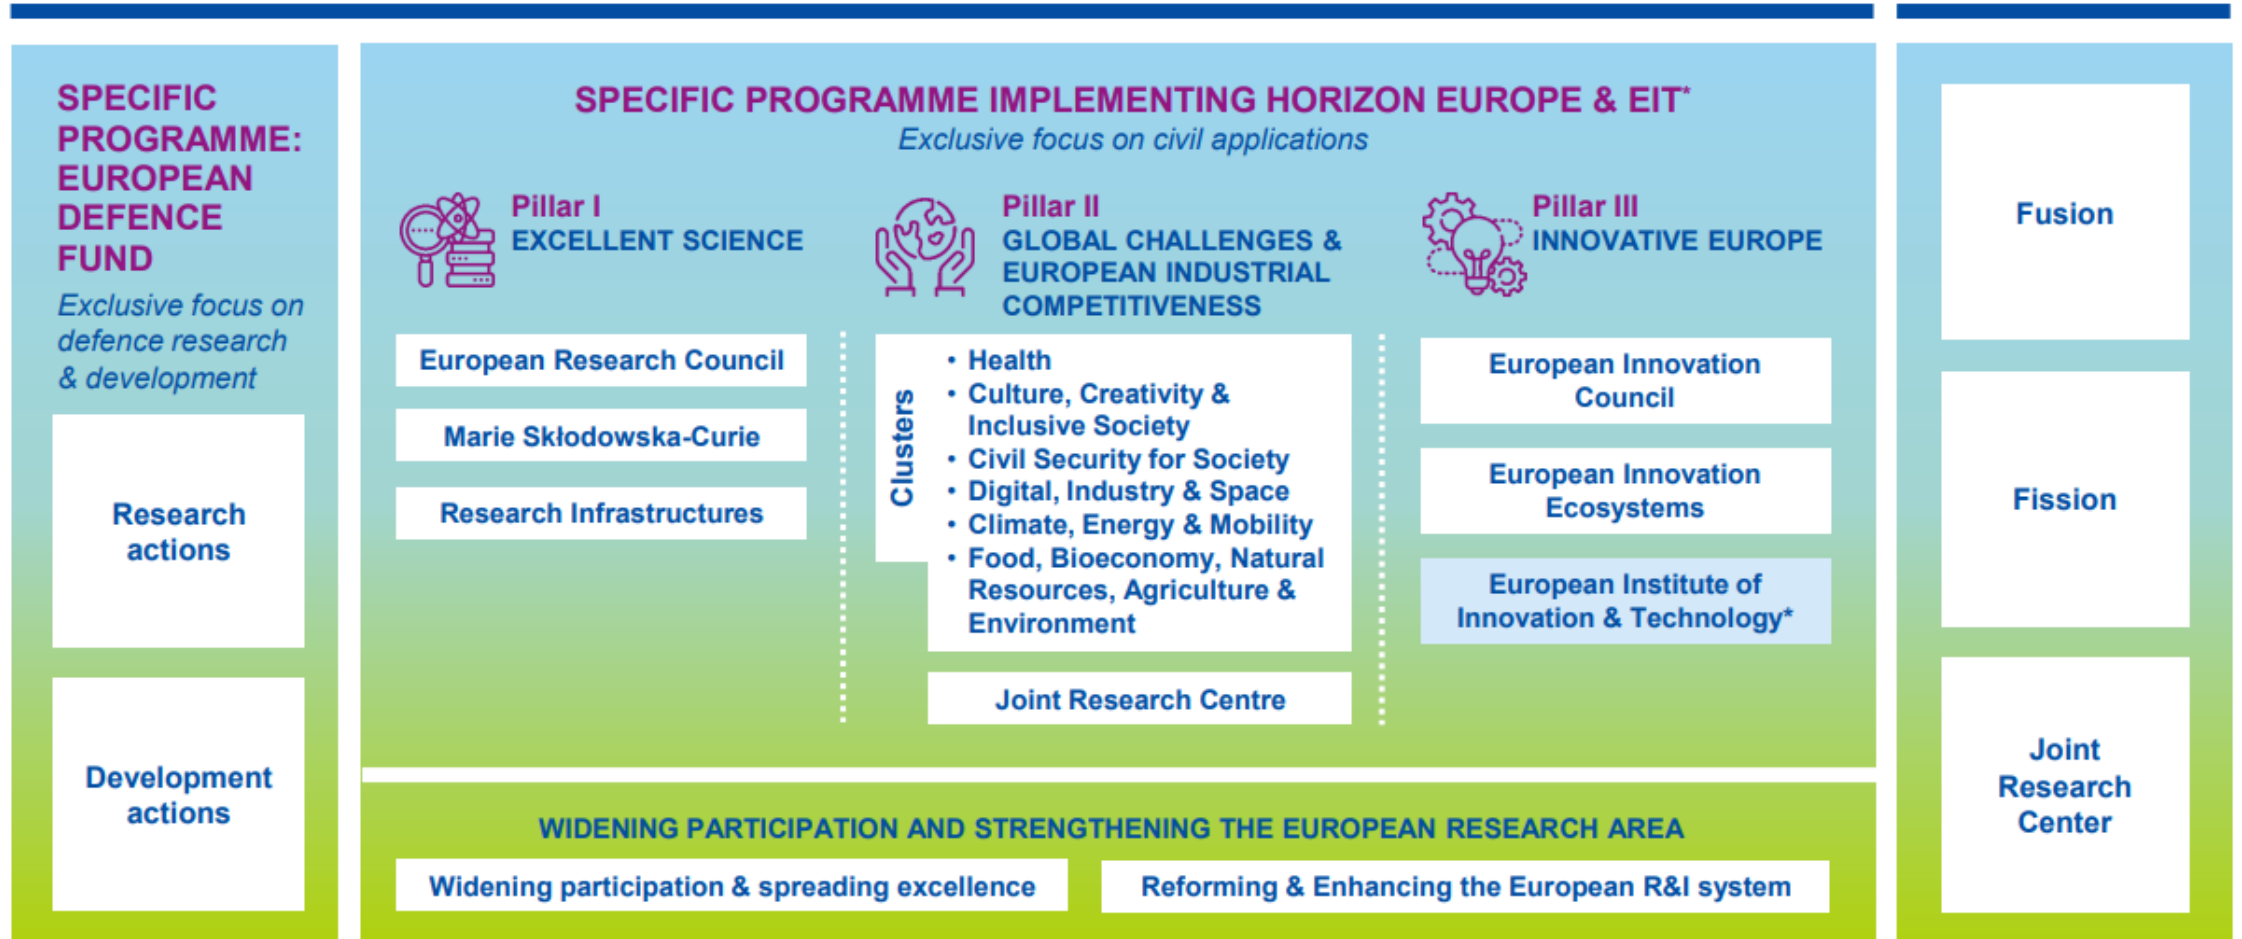

- It establishes R&I objectives and priorities, the actions to be developed and the EU budget.
- **Duration:** 7 years (2021-2027).
- **Focus:** areas of particular urgency and needs at European level.
- Expand and reinforce scientific knowledge in Europe, strengthen the scientific and technological base of European industry.

# Horizon Europe structure

## HORIZON EUROPE

## EURATOM

# Main objectives

The ambitious EU research and innovation framework programme (2021-2027)

1. Fuel EU's scientific and technological excellence and the strengthen the **European Research Area (ERA)**

**Science & technology**

2. Tackle policy priorities, including **green** and **digital** transitions and the **Sustainable Development Goals**

**Society**

3. Boost Europe's **innovation** uptake, competitiveness and jobs.

**Economy**

# Horizon Europe Budget: €95.5 billion (2021-2027)

(including €5.4 billion from NGEU – Next Generation Europe – programme of EU for Recovery from COVID-19 crisis)

## Political agreement December 2020 € billion in current prices

- Excellent Science
- Global challenges and European ind. comp.
- Innovative Europe
- Widening Part and ERA

PROJECT

# Strategic Plan 2025-2027

The **Horizon Europe 2025-2027 Strategic Plan** guides research and innovation funding, addressing major global challenges such as climate change, biodiversity loss, digital transition and population ageing.

It sets out **three strategic orientations** for research and innovation investment under Horizon Europe for the years 2025-2027:

- **Green transition**
- **Digital transition**
- A more **resilient, competitive, inclusive and democratic** Europe

# What's new

The strategic plan increases Horizon Europe's ambition on **biodiversity** and commits to dedicate 10% of the total Horizon Europe budget for 2025-2027 to these issues.

This new commitment complements existing climate spending targets:

- 35% over the lifetime of Horizon Europe.
- Main digital activities: 13 billion over the same period.

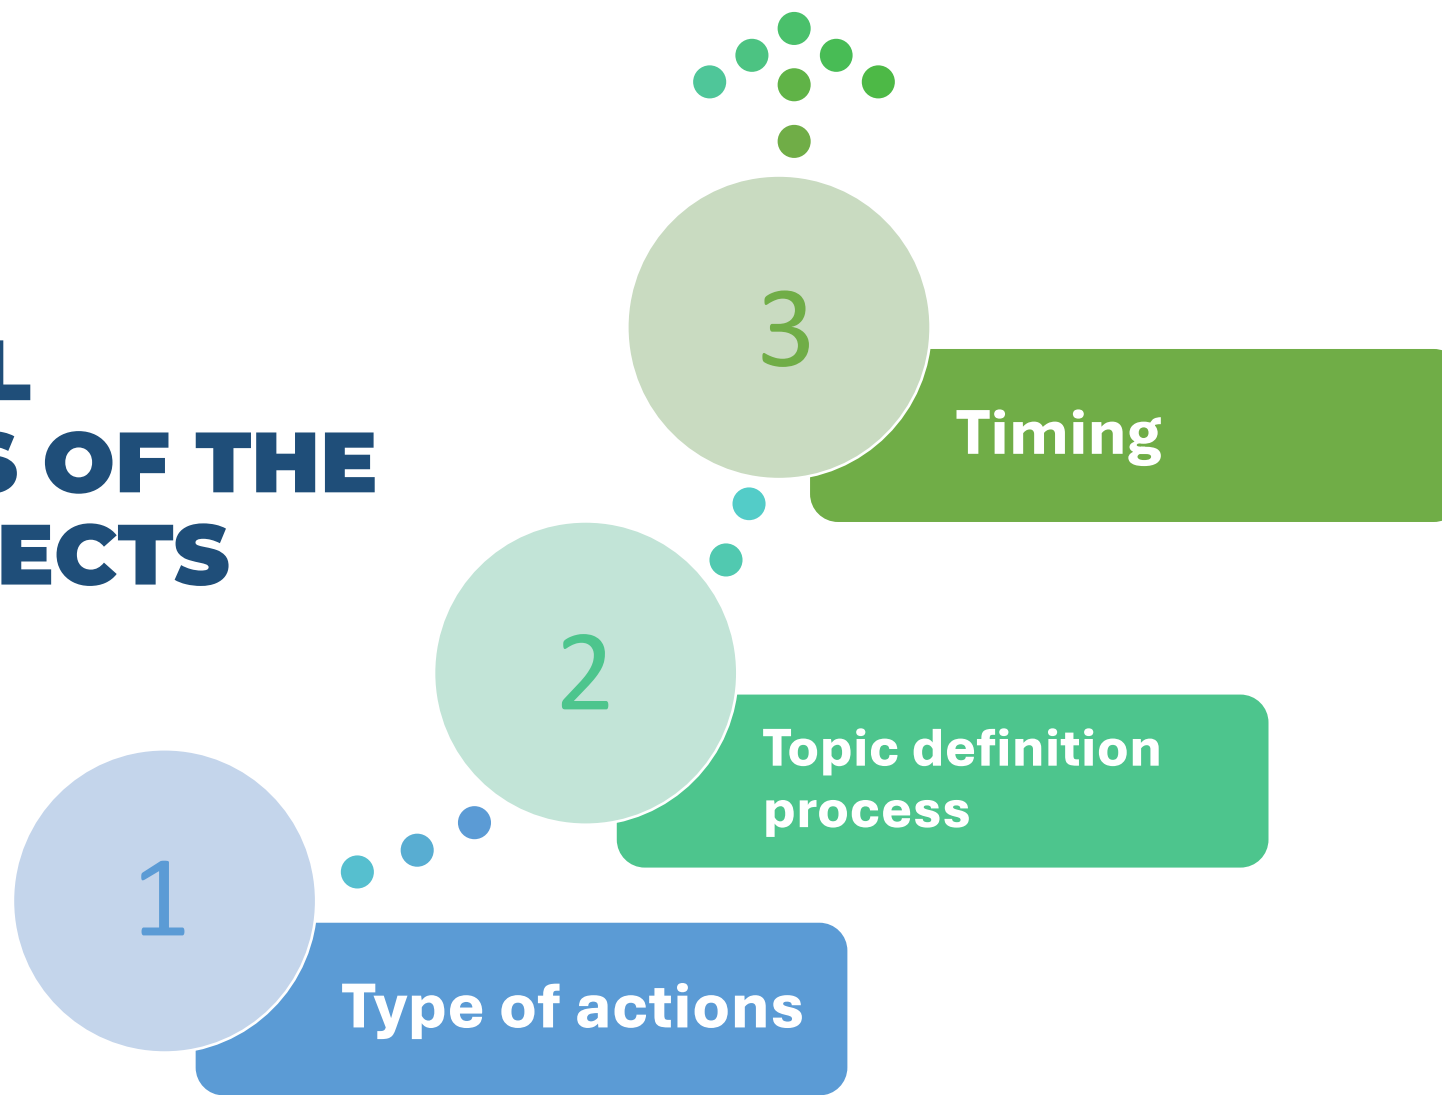

# To sum up

- **3 key strategic orientations** for research and innovation activities.
- **32 expected impacts** distributed among clusters.
- 9 new co-programmed and co-financed **Partnerships**
- **EU Missions** and summary of their achievements in the first years
- New European Bauhaus facility

# GENERAL ASPECTS OF THE HE PROJECTS

# Type of actions

## Research and innovation action (RIA)

Activities to establish **new knowledge** or to explore the feasibility of a new or improved technology, product, process, service or solution. This may **include basic and applied research, technology development and integration, testing, demonstration and validation of a small-scale prototype** in a laboratory or simulated environment.

Aprox up to TRL 5

## Innovation action (IA)

Activities to produce plans and arrangements or designs for new, altered or improved products, processes or services. These activities may include **prototyping, testing, demonstrating, piloting, large-scale product validation and market replication**.

## Coordination and support actions (CSA)

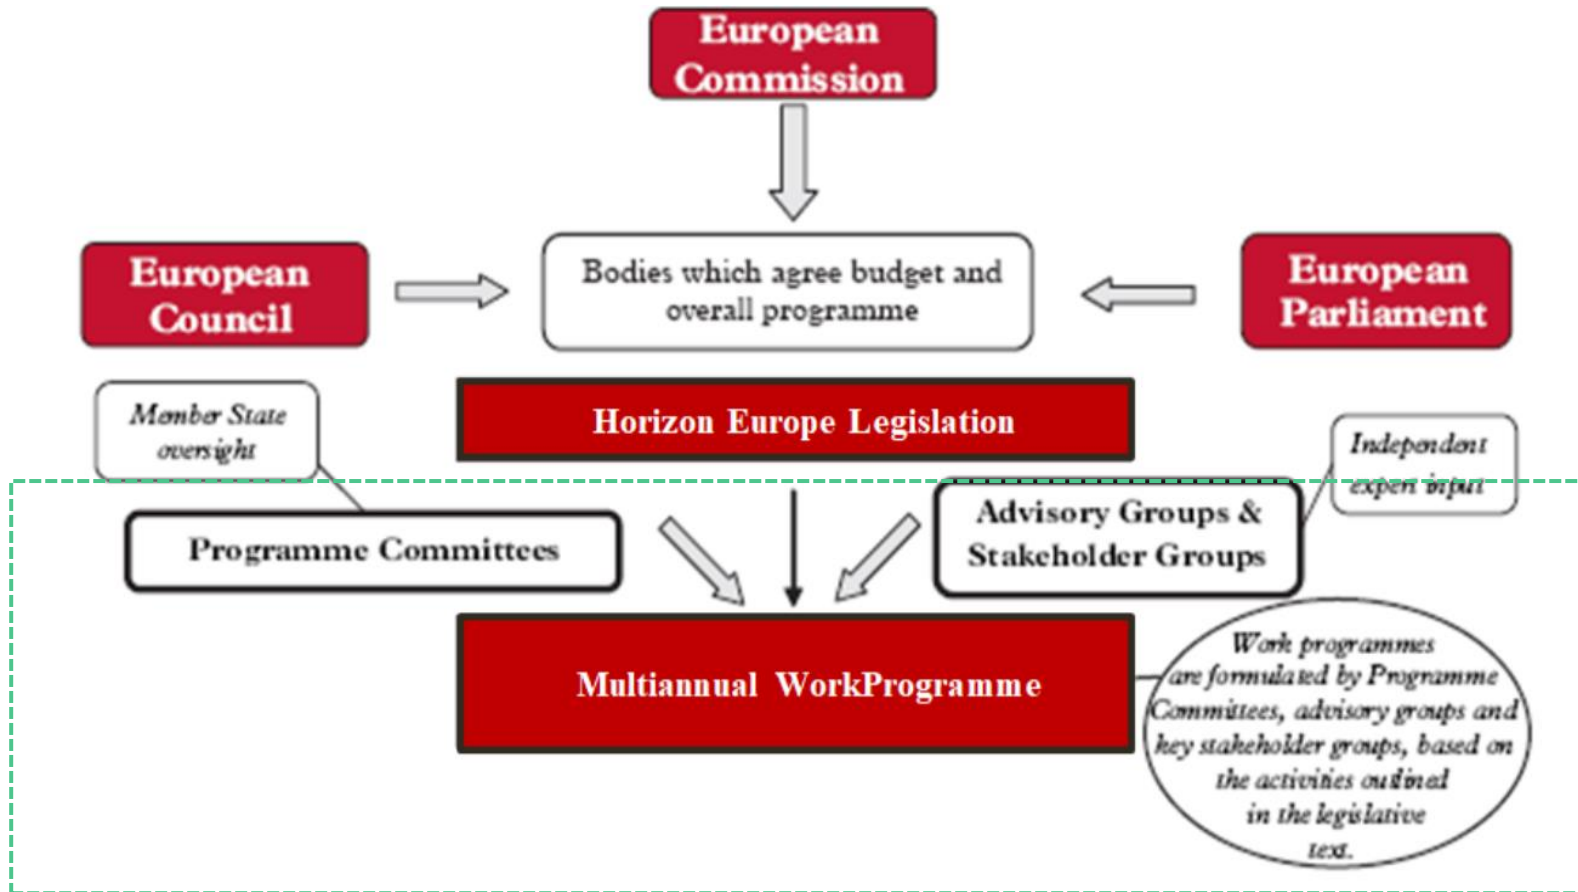

Activities that contribute to the objectives of Horizon Europe. This **excludes R&I activities**. Activities eligible are **bottom-up coordination actions** which promote cooperation between legal entities from Member States and Associated Countries

# Funding

## Maximum funding rate per type of action

Type of Action	Funding rate
<b>RIA</b> (Research and innovation action)	<b>100%</b>
<b>IA</b> (Innovation action)	<b>70%</b> (except for non-profit legal entities, where a rate of up to 100% applies)
<b>CSA</b> (Coordination and support action)	<b>100%</b>
<b>CoFund</b> (Programme co-fund action)	Between <b>30% and 70%</b>
<b>IMDA</b> (Innovation and market deployment)	<b>70%</b> (except for non-profit legal entities, where a rate of up to 100% applies)
<b>TMA</b> (Training and mobility action) – (MSCA)	<b>100%</b>
<b>PCP</b> (Pre-commercial procurement action)	<b>100%</b>
<b>PPI</b> (Public procurement of innovative solutions action)	<b>50%</b>

# Topic definition process

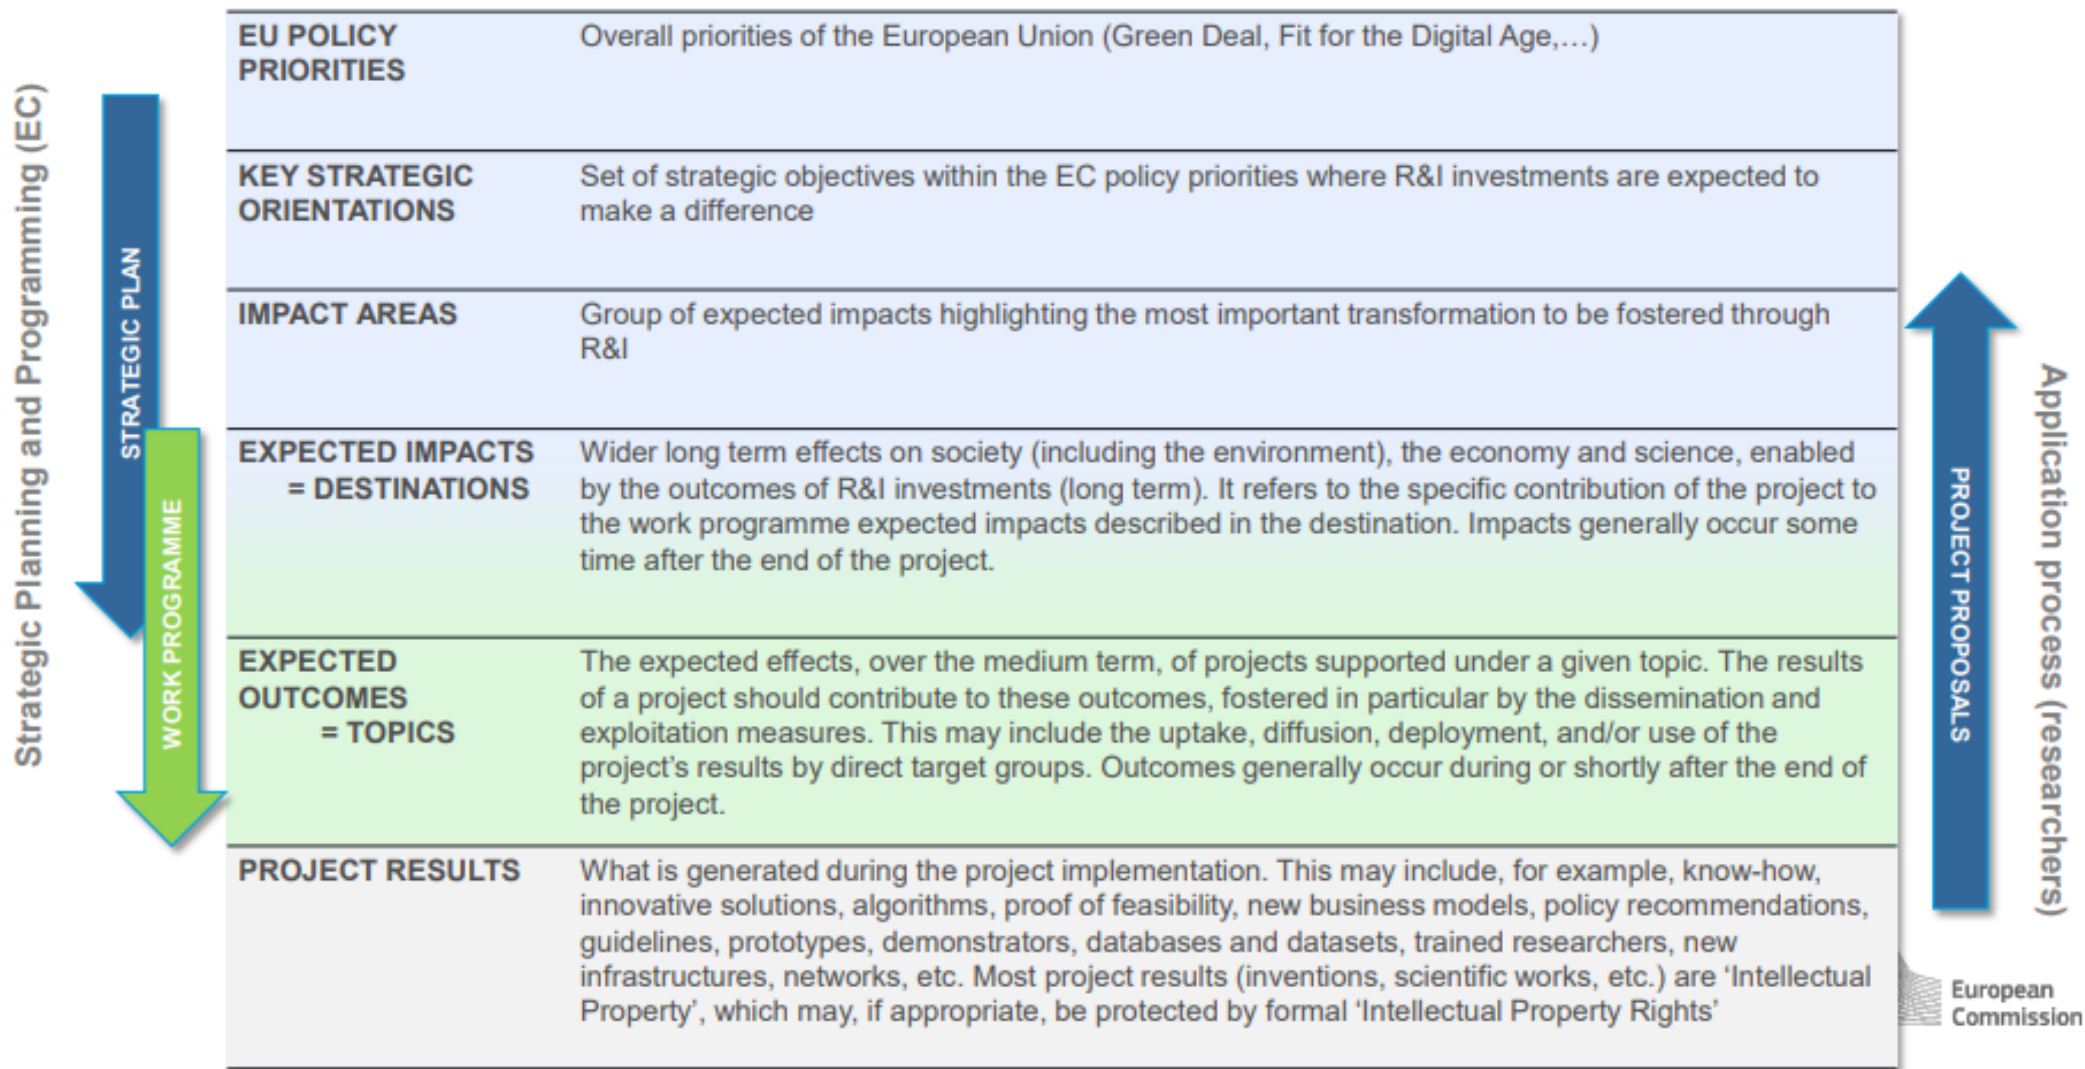

Program Committee Members (pre-publication)  
Vs  
National Contact Points (after publication)

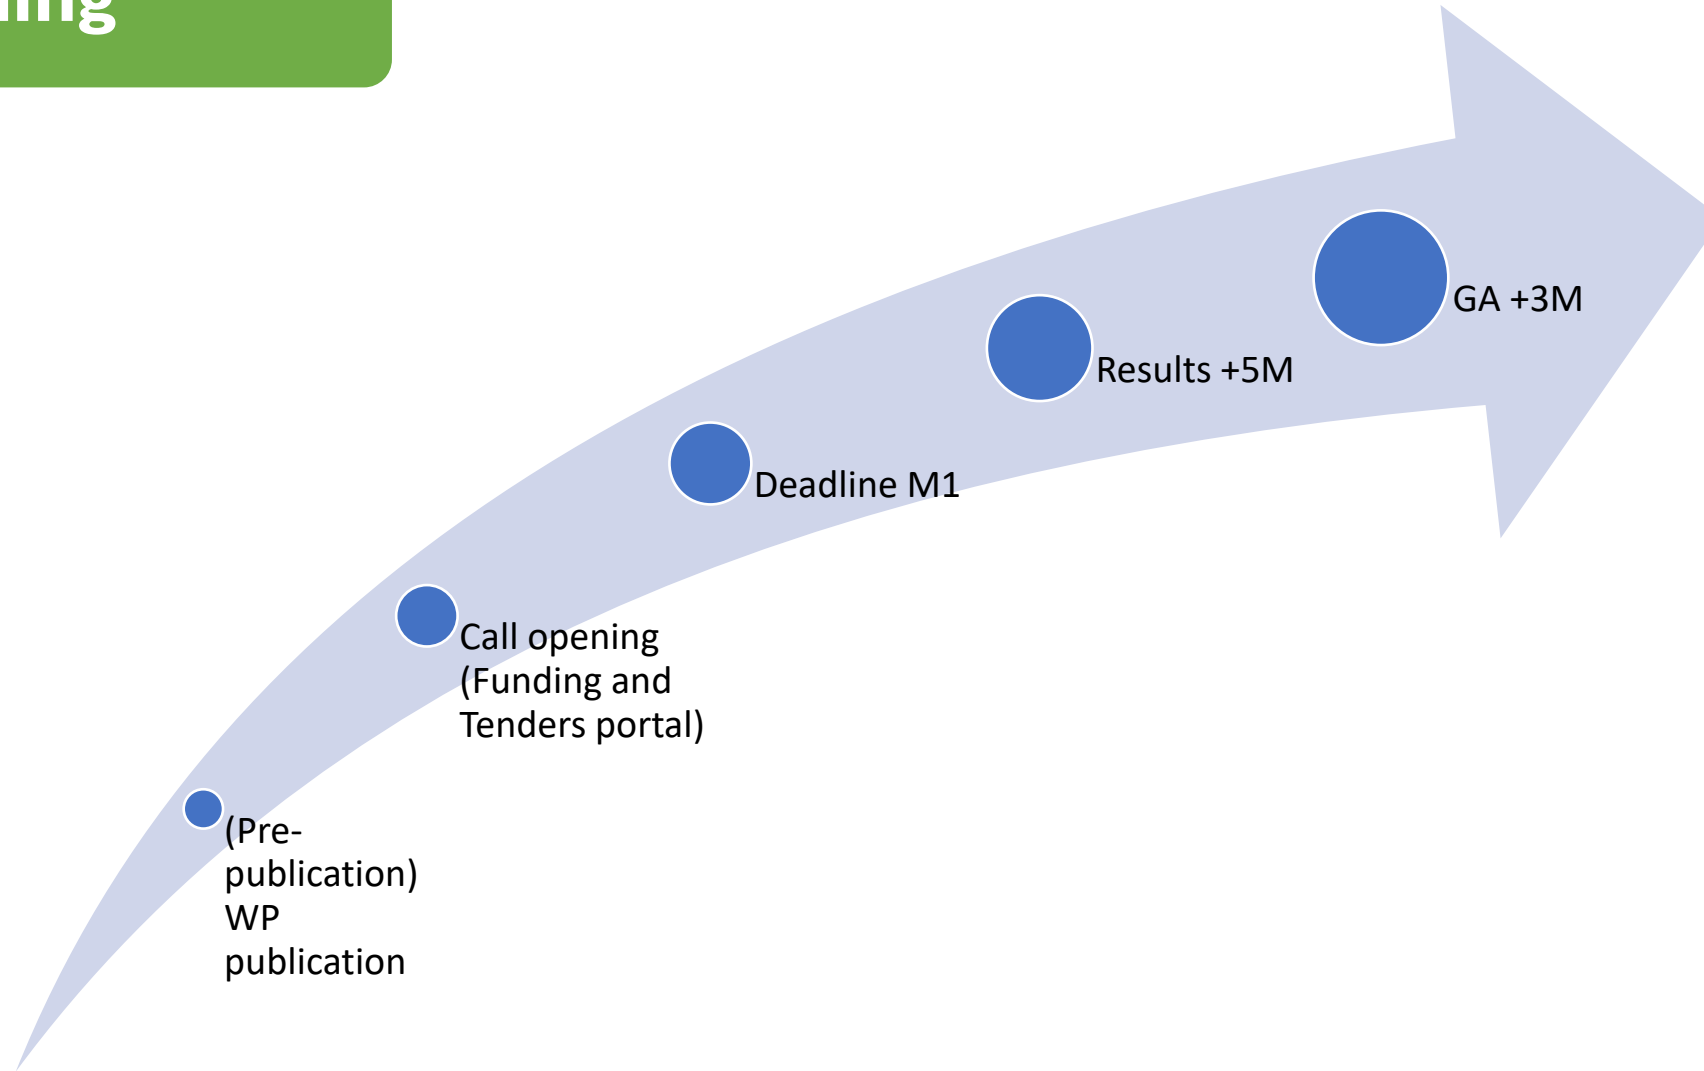

\*PC: member states representative and experts + several Directorate-General involved in the cluster, e.g. HealthPC: DG-RTD, DG-CNECT, DG-SANTE, DG-HERA

## Pillar II

# Budget for clusters & for JRC

*in current prices*

<b>Cluster 1</b>	<b>Health</b>	<b>€8.246 billion</b> (including €1.35 billion from NGEU)
<b>Cluster 2</b>	<b>Culture, Creativity &amp; Inclusive Societies</b>	<b>€2.280 billion</b>
<b>Cluster 3</b>	<b>Civil Security for Society</b>	<b>€1.596 billion</b>
<b>Cluster 4</b>	<b>Digital, Industry &amp; Space</b>	<b>€15.349 billion</b> (including €1.35 billion from NGEU)
<b>Cluster 5</b>	<b>Climate, Energy &amp; Mobility</b>	<b>€15.123 billion</b> (including €1.35 billion from NGEU)
<b>Cluster 6</b>	<b>Food, Bioeconomy, Natural Resources, Agriculture &amp; Environment</b>	<b>€8.952 billion</b>
	<b>JRC (non-nuclear direct actions)</b>	<b>€1.970 billion</b>

Clusters are including a budget for Partnerships and Missions  
NGEU is Next Generation EU programme – Recovery Fund

# Cluster 1

Health

# Intervention Areas

## INTERVENTION AREAS

**Health throughout the life course.**

**Environmental and social health determinants.**

**Non-communicable and rare diseases.**

**Infectious diseases including poverty-related and neglected diseases.**

**Tools, technologies and digital solutions for health and care including personalised medicine.**

**Health care systems**

# From the Strategic Plan to the Topics

CLUSTER IMPACT SUMMARY

Cluster 1

**HEALTH**

## EXPECTED IMPACTS = DESTINATIONS

Staying healthy in a rapidly changing society

Living and working in a health-promoting environment

Tackling diseases and reducing disease burden

Ensuring equal access to innovative, sustainable, and high-quality healthcare

Developing and using new tools, technologies and digital solutions for a healthy society

Maintaining an innovative, sustainable, and competitive EU health industry

# From the Strategic Plan to the Topics

## EXPECTED IMPACTS = DESTINATIONS

Staying healthy in a rapidly changing society

Living and working in a health-promoting environment

Tackling diseases and reducing disease burden

Ensuring equal access to innovative, sustainable, and high-quality healthcare

Developing and using new tools, technologies and digital solutions for a healthy society

Maintaining an innovative, sustainable, and competitive EU health industry

# Characteristics of Topics

- Disease agnostic
- Involvement of end users, usually patient, healthcare professionals, informal caregivers,..
- Preclinical and Clinical studies, up to Phase 2b can be performed
- Inclusion of Social Sciences and Humanities (SSH)
- Societal impact
- Thresholds: 4/5 Excellence, 4/5 Impact, 3/5 Implementation, cumulative 12/15

# Health Cluster partnerships \*Canada

EU Missions are a new (HE) way to bring concrete solutions to some of our greatest challenges in health, climate change, water...

- ✓ Missions include research and innovation projects and new policies and regulations.
- ✓ They have ambitious goals and will deliver **concrete results by 2030**
- ✓ EU Missions support Europe's transformation into a greener, healthier, more inclusive and resilient continent. They aim to bring **tangible benefits to people** in Europe and **engage Europeans** in their design, implementation and monitoring.

EU MISSIONS

## The 5 EU Missions

100 Climate-neutral and Smart Cities by 2030

A Soil Deal for Europe: 100 living labs and lighthouses to lead the transition towards healthy soils by 2030

Adaptation to Climate Change: support at least 150 European regions and communities to become climate resilient by 2030

Cancer: working with Europe's Beating Cancer Plan to improve lives of more than 3 million by 2030

Restore our Ocean and Waters by 2030

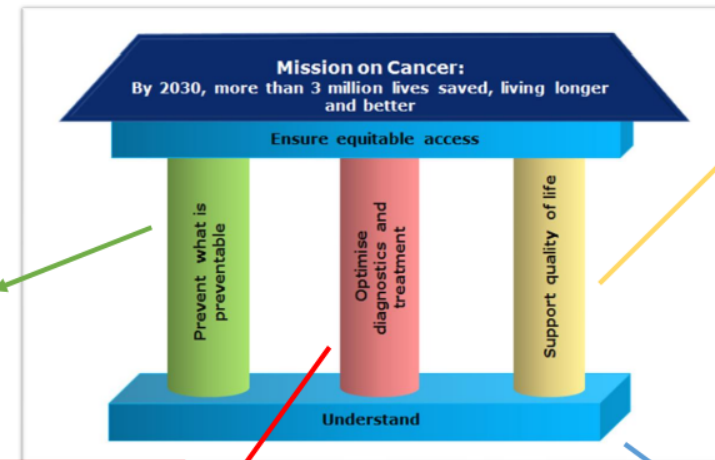

**Cancer Mission:** to improve the lives of more than 3 million people by 2030 through prevention, cure and solutions to live longer and better

## Cancer Mission - WP2021-2024

- Mission-guiding principles
- Mission clusters
- Synergy Europe's Beating Cancer Plan

- Develop new methods and technologies for screening and early detection  
HORIZON-MISS-2021-CANCER-02-01
- Improving and upscaling primary prevention of cancer through implementation research  
HORIZON-MISS-2022-CANCER-01-01
- Enhance cancer prevention through behaviour change  
HORIZON-MISS-2023-CANCER-01-02
- Early detection heritable cancers in European regions  
HORIZON-MISS-2024-CANCER-01-03

- Pragmatic clinical trials to optimise treatment for cancer patients  
HORIZON-MISS-2022-CANCER-01-03
- Strengthen research capacities of comprehensive cancer infrastructures  
HORIZON-MISS-2022-CANCER-01-02
- Pragmatic clinical trials minimally invasive diagnostics  
HORIZON-MISS-2023-CANCER-01-03
- Support a pragmatic clinical trial programme by cancer charities  
HORIZON-MISS-2024-CANCER-01-04

- Develop and validate a set of quality-of-life measures for cancer patients and survivors  
HORIZON-MISS-2021-CANCER-02-02
- Towards the creation of a European Cancer Patient Digital Centre  
HORIZON-MISS-2022-CANCER-01-04:
- Improve quality of life for survivors of childhood cancer (Best practices and tools)  
HORIZON-MISS-2023-CANCER-01-04
- Improving the understanding and management of late-effects in adolescents and young adults  
HORIZON-MISS-2024-CANCER-01-05
- An information portal for the European Cancer Patient Digital Centre  
HORIZON-MISS-2024-CANCER-01-06

- Preparing UNCAN.eu, a European initiative to understand cancer  
HORIZON-MISS-2021-UNCAN-01-01
- Better understand healthy versus cancer cells at individual and population level  
HORIZON-MISS-2021-CANCER-02-03
- Better understand tumour-host interactions in cancer patients  
HORIZON-MISS-2023-CANCER-01-01
- Use cases for the UNCAN.eu research data platform  
HORIZON-MISS-2024-CANCER-01-01

Creation of national cancer mission hubs - HORIZON-MISS-2022-CANCER-01-05

National cancer data nodes - HORIZON-MISS-2024-CANCER-01-02

# Cluster 2

Culture, Creativity and Inclusive Society

# Objetives

## CULTURE, CREATIVITY & INCLUSIVE SOCIETY

Social orientation

- Strengthen European **democratic values**, including the rule of law and fundamental rights, and improve democratic **governance** and **citizen participation**.
- Safeguarding and promoting **cultural heritage**.
- Respond to and shape "social, economic, technological and cultural **transformations**" that contribute to inclusion and growth.

### How?

- By mobilising the **multidisciplinary expertise** of European social sciences and humanities.
- By providing **evidence-based policy** options for a socially just and inclusive European recovery.

# Destinations

## Democracy and governance

Strengthen democratic values, including the rule of law and fundamental rights.

## Culture, creativity and cultural heritage

Safeguarding our cultural heritage, exploring the potential of cultural and creative industries.

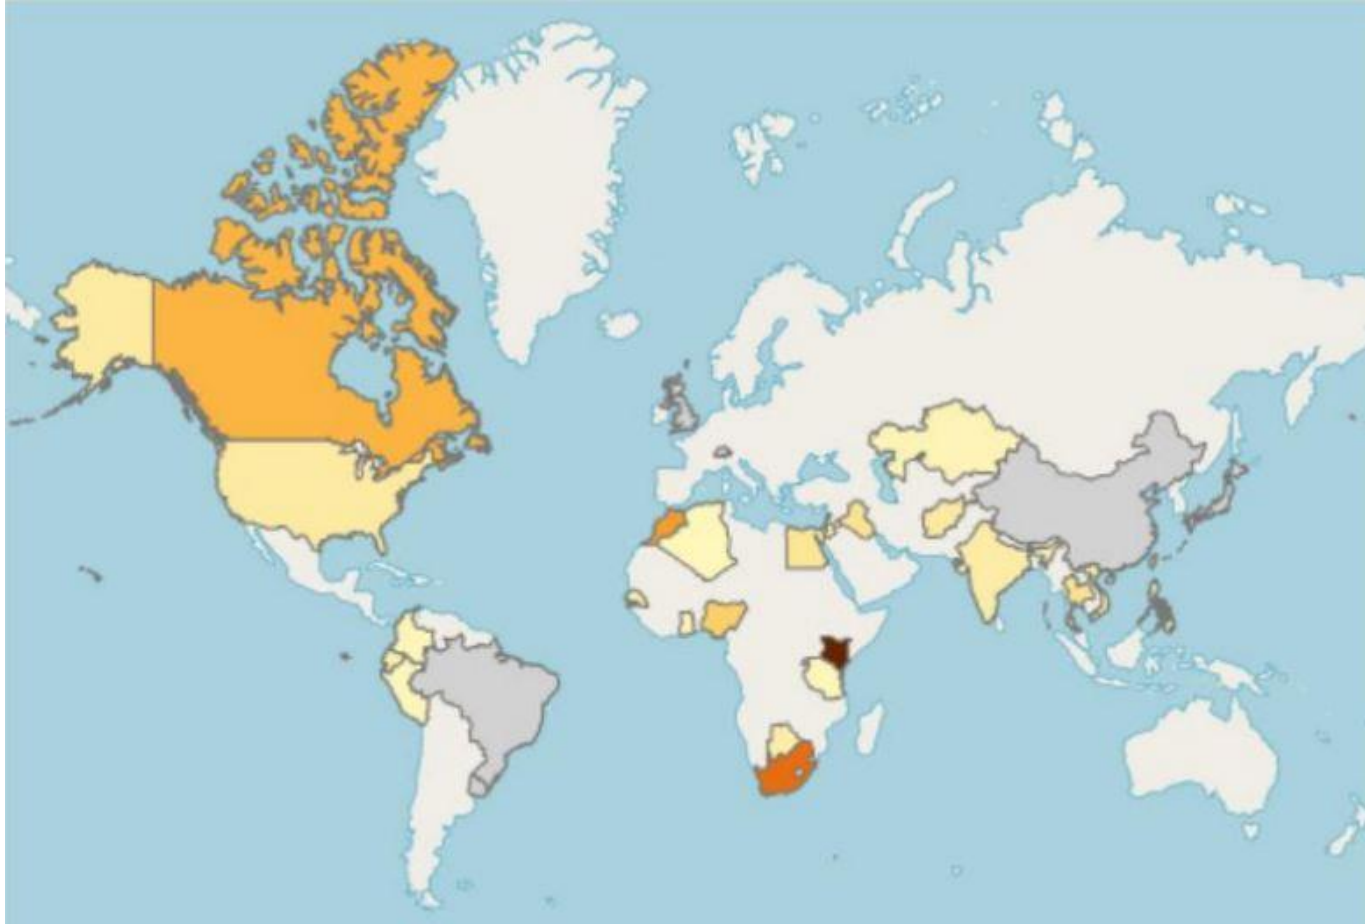

## Socio-economic transformations

Promote socio-economic transformations that contribute to inclusion, growth and migration or labour market management..

# Non-associated country participation in Cluster2

---

- 196 participations (including 65 from UK, 18 from Switzerland, 12 US).
- 72 participations from outside Europe.
- Total EU contribution of 5.76 M€.

• Updated list of [Associated countries and those under association process, and the list of low and middle-income third countries, which receive automatic funding](#)

# Cluster 3

Civil security for society

# Areas of intervention

## Disaster-resilient societies

It will focus on the development of capacities and technologies for first responders and emergency teams for the prevention, preparedness, response and mitigation of such disasters, both natural and man-made, and associated with climate change or extreme events.

## Protection and security

This area will cover threats to citizens such as criminal and terrorist activities, hybrid threats, protection of public spaces and critical infrastructure, victim support, anti-money laundering, piracy and smuggling, border control and protection (land, air and maritime) and the free and safe movement of citizens and goods.

## Cybersecurity

Improve resilience to cyber-attacks and counteract them. The rights of citizens in terms of data protection will be strengthened and work will be done to provide the European Union with strategic autonomy in cybersecurity technologies.

# Destinations

# Cluster 4

Digital, Industry and Space

Strengthen capabilities and ensure EU sovereignty in key enabling technologies for digitization and production, as well as in space technology along the entire value chain, in order to build a **competitive, digital, low-emission and circular industry**; secure a sustainable supply of raw materials; develop advanced materials and provide the basis for breakthroughs and innovation in relation to global societal challenges for society

## DESTINATIONS

- **Climate neutral, circular and digitised production**
- **Increased autonomy in key strategic value chains for resilient industry**
- **World leading data and computing technologies**
- **Digital and emerging technologies for competitiveness and fit for the Green Deal**
- **Open strategic autonomy in developing, deploying and using global space-based infrastructures, services, applications and data**
- **A human-centred and ethical development of digital and industrial technologies.**

# Cluster 5

Climate, Energy and Mobility

# Objectives

This cluster aims to fight **climate change** by better understanding its causes, evolution, risks, impacts and opportunities, and by making the **energy** and **transport** sectors more climate and **environment-friendly**, more efficient and competitive, smarter, safer and more resilient.

## Areas:

- climate science and solutions
- energy supply
- energy systems and grids
- buildings and industrial facilities in energy transition
- communities and cities
- industrial competitiveness in transport
- clean, safe and accessible transport and mobility
- smart mobility
- energy storage

# Cluster 6

Food, Bioeconomy, Natural Resources, Agriculture & Environment

# Objetives

- ❑ To reduce **environmental degradation**, halt and reverse the **decline of biodiversity** on land, inland waters and sea.
- ❑ To better **manage natural resources** through transformative changes of the economy and society in both urban and rural areas.

➔ It will ensure **food and nutrition security** for all within planetary boundaries through knowledge, innovation and digitalisation in agriculture, fisheries, aquaculture and food systems.

➔ I will steer and accelerate the **transition** to a low carbon, resource efficient circular economy and **sustainable bioeconomy**, including forestry.

## Areas:

- environmental observation
- biodiversity and natural resources
- agriculture, forestry and rural areas
- seas, oceans and inland waters
- food systems
- bio-based innovation systems in the EU's bioeconomy
- circular systems

## Common rules

- Consortia projects with a minimum of **3 EU or associated countries** (at least one Member State).
- Common **funding instruments** (RIA, IA, CSA, etc.)
- **Biannual** Work Programmes
- **Top-Down** (pre-defined topics)
- **Synergies** between clusters
- **SSH and Open Science**

# Work programmes- Calls-Topics

Biannual Work Programmes - annual calls:

- ❑ **Introduction:** expected impact, priorities and objectives
- ❑ **Thematic sections:**
  - General objectives
  - Calls for proposals
  - Research topics for each call

# Participation of US and Canada in Horizon Europe

PARTICIPATION VS FUNDING

# Who is eligible for funding?

## EU COUNTRIES

- Member States (MS) including their outermost regions.
- The Overseas Countries and Territories (OCTs) linked to the MS.

## NON-EU COUNTRIES

- Countries associated to Horizon Europe (AC).
- Low- and middle-income countries: See [HE Programme Guide](#).
- Other countries when announced in the call or exceptionally if their participation is essential.

## SPECIFIC CASES

- Affiliated entities established in countries eligible for funding.
- EU bodies
- International organisations (IO):
  - International European research organisations are eligible for funding.
  - Other IO are not eligible (only exceptionally if participation is essential)
  - IO in a MS or AC are eligible for funding for Training and mobility actions and when announced in the call conditions.

## Non-associated Third Country Participation in Pilar II HE

## Non-associated Third Country Participation in Pilar II Health

<b>HE Pilar II – Health Cluster</b>	Non-associated third Country (F&T:Partner, EU funding) Coordinator, WPLead	Associated Country (F&T:Partner, EU funding) Coordinator, WPLead

## Eligibility conditions

The conditions are described in General Annex B. The following exceptions apply:

In recognition of the opening of the US National Institutes of Health's programmes to European researchers, any legal entity established in the United States of America is eligible to receive Union funding.

If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used).

Until association agreements start producing legal effects either through provisional application or their entry into force, transitional arrangements may apply if provided for in the particular Horizon Europe Work Programme. The transitional arrangements apply with regard to the following countries and legal entities established in these countries, with which association negotiations are being processed or where association is imminent (*listed in the alphabetical order*):

1. Canada (applicable to Pillar II 'Global Challenges and European Industrial Competitiveness', including for the institutionalised European partnerships, and for award procedures implementing Union budget for the year 2024 and onwards)

# Participation of US and Canada in HE:

The screenshot shows the 'Funding: Submission Service' interface. At the top, there is a progress bar with six steps: Login, Topic selection, Create proposal, Participants (current step), Proposal forms, and Submit. The 'Participants' step is highlighted with a pencil icon. Below the progress bar, the 'Participants' section is displayed. It includes a 'Deadline' box indicating '31 October 2022 10:25:00 Brussels Local Time' and '45 days left until closure'. A 'Call data' section lists 'Call: DIGITAL\_2022-CLOUD-AI-03', 'Topic: DIGITAL\_2022-CLOUD-AI-03-D5-SMART', 'Type of action: DIGITAL-GFS', and 'Type of MGA: DIGITAL-AG'. A 'Proposal data' section shows 'Acronym: Test' and 'Draft ID: SEP-202591242'. A 'Support & Helpdesk' section contains links for 'Online Manual', 'IT How To', 'IT Helpdesk', and 'FAQ'. The main content area shows 'Number of participants: 1' and 'Coordinator: RENNES 2'. Below this, there is a list of participants with details for 'UNIVERSITE RENNES II' (PIC: 999956220) and buttons for 'Change organisation' and 'Contact organisation'. At the bottom, there are buttons for 'Add Partner', 'Add Associated partner', 'SAVE', 'SAVE AND GO TO NEXT STEP', and 'NEXT'.

The screenshot shows the 'Find your organisation' search interface. It includes a search box with the text '922116145' and a 'Search' button. Below the search box, there is a dropdown menu showing the results for 'PIC: 922116145' with a status of 'DECLARED'. There are 'Use' and 'CO' buttons. Below the search results, there is a 'View complete list' button and a link to 'Click here' to register an organisation for a Participant Identification Code (PIC).

# Participation of US and Canada in HE at proposal level:

## 1.2 Methodology #@CON-MET-CM@##@COM-PL-CP@# [e.g. 14 pages]

- Describe and explain the overall methodology, including the concepts, models and assumptions that underpin your work. Explain how this will enable you to deliver your project's objectives. Refer to any important challenges you may have identified in the chosen methodology and how you intend to overcome them. [e.g. 10 pages]
- Describe any national or international research and innovation activities whose results will feed into the project, and how that link will be established. [e.g. 1 page]
- Explain how expertise and methods from different disciplines will be brought together and integrated in pursuit of your objectives. If you consider that an inter-disciplinary approach is unnecessary in the context of the proposed work, please provide a justification. [e.g. 1/2 page]

## 2.2 Measures to maximise impact - Dissemination, exploitation and communication #@COM-DIS-VIS-CDV@# [e.g. 5 pages, including section 2.3]

- Describe the planned measures to maximise the impact of your project by providing a first version of your 'plan for the dissemination and exploitation including communication activities'. Describe the dissemination, exploitation and communication measures that are planned, and the target group(s) addressed (e.g. scientific community, end users, financial actors, public at large).

⚠ If exploitation is expected primarily in non-associated third countries, justify by explaining how that exploitation is still in the Union's interest.

Table 3.1f: Summary of staff effort

Please indicate the number of person/months over the whole duration of the planned work, for each work package, for each participant. Identify the work-package leader for each WP by showing the relevant person/month figure in bold.

	WPn	WPn+1	WPn+2	Total Person-Months per Participant
Participant Number/Short Name				
Participant Number/Short Name				
Participant Number/Short Name				
<b>Total Person Months</b>				

## 3.2 Capacity of participants and consortium as a whole #@CON-SOR-CS@##@PM-MGT-PM@# [e.g. 3 pages]

⚠ The individual participants of the consortium are described in a separate section under Part A. There is no need to repeat that information here.

- Describe the consortium. How does it match the project's objectives, and bring together the necessary disciplinary and inter-disciplinary knowledge? Show how this includes expertise in social sciences and humanities, open science practices, and gender aspects of R&I, as appropriate. Include in the description affiliated entities and associated partners, if any.
- Show how the partners will have access to critical infrastructure needed to carry out the project activities.
- Describe how the members complement one another (and cover the value chain, where appropriate)
- In what way does each of them contribute to the project? Show that each has a valid role, and adequate resources in the project to fulfil that role.
- If applicable, describe the industrial/commercial involvement in the project to ensure exploitation of the results and explain why this is consistent with and will help to achieve the specific measures which are proposed for exploitation of the results of the project (see section 2.2).
- Other countries and international organisations:** If one or more of the participants requesting EU funding is based in a country or is an international organisation that is not automatically eligible for such funding (entities from Member States of the EU, from Associated Countries and from one of the countries in the exhaustive list included in the Work Programme General Annexes B are automatically eligible for EU funding), explain why the participation of the entity in question is essential to successfully carry out the project.
