## 2020 Call for Applications

### EMBL INTERDISCIPLINARY POSTDOCS

**Biology, Chemistry, Physics, Mathematics,  
Computer Science, Engineering and  
Molecular Medicine**

Candidates are invited to propose and design an interdisciplinary project of their choice, which should involve at least two research groups from any of the six EMBL sites in France, Germany, Italy, Spain and the UK.

- Prestigious three-year postdoctoral fellowships
- Dedicated training and career development programme
- International call (all nationalities)
- Interdisciplinary projects are a prerequisite
- Additional partners from academia, industry, clinics and museums
- Positions come with health care and pension benefits
- COFUNDED by EMBL and Marie Skłodowska-Curie actions

Apply online before  
**9 September 2020**
