Participation & Eligibility - Brazil

Participants from Brazil are **not automatically eligible for funding** and usually have to participate at their own cost.

They can receive exceptional funding, if:

- a) Brazil is explicitly identified in the work programme and call for proposals as being eligible for funding

- b) the granting authority considers that their participation as a beneficiary is essential for implementing the project, for example in view of their:
 - ✓ outstanding competence/expertise
 - ✓ access to particular research infrastructures
 - ✓ access to particular geographical environments
 - ✓ access to particular data

Eligibility – Type of Participants

Individual researchers

Are automatically eligible for funding

Examples:

- MSCA Postdoctoral Fellowships
- ERC Grants

Institutions taking part in consortia

Are not automatically eligible for funding

Examples:

- In collaborative projects: Research and Innovation Actions (RIA), Innovation Actions (IA), Coordination and Support Actions (CSA)

Support from Brazilian Funding Agencies

Administrative Arrangement (AA) on mechanisms to support EU-Brazil cooperation in research and innovation activities

- ✓ Previously implemented in the context of Horizon 2020
- ✓ **In the context of Horizon Europe:** finalizing signature procedures for the new AA
- ✓ **Objective:** to promote stronger EU-Brazil cooperation in R&I based on mutual benefit

Signatories:

AA: Mechanisms for Cooperation

The AA allows the Sides to implement mechanisms to support / facilitate collaborative activities and enhance mutual knowledge and awareness within their respective frameworks, laws and funding programmes

How?

1. Support to collaborative activities

- a. Co-financing from Brazilian agencies for Brazilian entities taking part in Horizon Europe collaborative actions, including those under Horizon Europe Partnerships and Missions
- b. Twinning of parallel collaborative activities
- c. Coordinated calls for proposals

2. Enhancement of mutual knowledge and awareness

How does it work in practice?

As under Horizon 2020, same logic is maintained

The involved Funding Agencies at Federal or State level can:

- Publish **Guidelines** for orienting participation in Horizon Europe Calls
- Provide support through **targeted calls**, matching Horizon Europe Calls
- Make available **existing funding programs** at national level, to cover Brazilian participation
- Promote **Twinning** activities **among respectively funded projects**
- **In all cases:** need to consult the respective Funding Agency involved in order to verify the specific rules and modalities of the funding provided
