Meet international research collaborators and launch your research consortium

Who should participate?

Research actors from the public and the private sector across ASEAN and the European Research Area (ERA) are invited to attend.

Participants should have the capacity and intent of joining a Horizon Europe-funded research consortia.

What is Horizon Europe?

Horizon Europe is an EU research and innovation programme. It has a budget of €95.5 billion and runs from 2021 until 2027. The programme facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges. It supports creating and better dispersing of excellent knowledge and technologies.

Horizon Europe Funding

In summary, Horizon Europe funding is available for:

- excellent research in any field
- researcher mobility
- research infrastructure
- global challenges and industrial competitiveness:
  - health
  - culture, creativity and inclusive society
  - civil security for society
  - digital, industry and space
  - climate, energy and mobility
  - food, bioeconomy, natural resources, agriculture and environment
- innovation
- the development of the European research and innovation systems.

Horizon Europe funding is awarded based on calls for project proposals, which are published on the Funding and Tender's Portal. The calls for proposals define the thematic areas for which funding is available and provide all criteria that need to be respected. They also include information on the total amount of budget available and the deadline for submitting a call.

Am I eligible for Horizon Europe funding?

Legal entities established in any of the EU Member States or in any country associated with Horizon Europe are eligible for Horizon Europe funding. Within ASEAN, legal entities in Cambodia, Indonesia, Laos, Myanmar, Malaysia, Thailand, Philippines, Vietnam are eligible for Horizon Europe funding. Legal entities from Brunei and Singapore are eligible for funding only when such funding is explicitly foreseen in the specific call.

How can I find partners for a Horizon Europe project?

- Mobilize your European and global research network
- Use the Partner Search Function on the Funding & Tender's Portal

The Platform

- This event will be hosted on the Hopin platform and simulates a virtual conference.
- The platform offers various opportunities for engagement with and between the participants.
- Participation in the event is free of charge.
- <u>You can find en explanatory video of the platform here.</u>

Matchmaking

- Expand your global network of research collaborators from Europe and ASEAN

- Meet research actors from the private and the public sector

- Hold one-on-one meetings to explore synergies

- Pair up with other attendees as many times as you like during the event

Matchmaking: How does it work?

Q: What is Networking/Matchmaking and how does it work?

A: The Networking area is the place for automated one-on-one meetings. In the networking segment, when someone clicks the Ready button, the system automatically pairs you up with someone else who has also clicked the Ready button. This match is paired randomly. If both parties are available, the two are matched instantly and the video chat begins and lasts for 3 minutes.

Q: How many times can an attendee be paired in networking during an event?

A: Attendees are able to pair with other attendees as many times as possible during the event.

Q: How long does one networking meeting last?

A: We have set up the duration to the maximum 180 seconds per pairing.

Q: What if I want to extend the meeting, can I do that?

A: Absolutely! You are able to extend the meeting by clicking the Extend button. As the button is clicked, the other participant will receive a notification to confirm if they wish to extend the meeting. The extra time equals another 180 seconds which is the default duration.
