RCSI
UNIVERSITY
OF MEDICINE
AND HEALTH
SCIENCES

RCSI University of Medicine and Health Sciences

Dr Alice Coughlan
Research Funding Officer

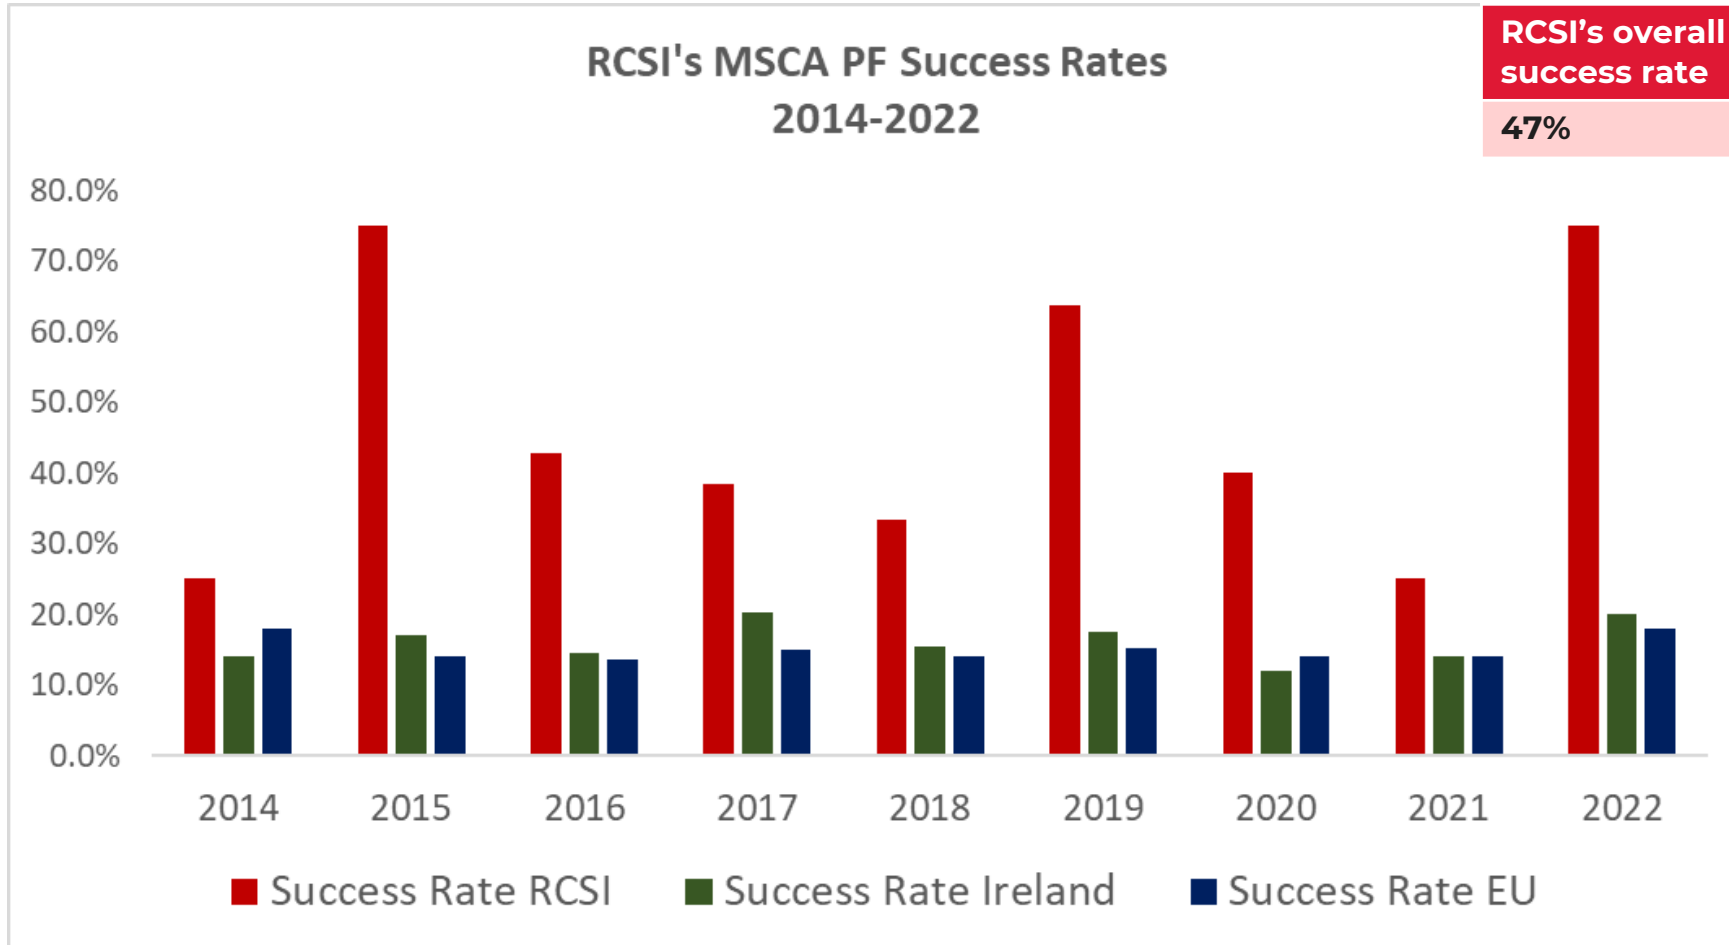

RCSI University of Medicine and Health Sciences

We are an international, independent, not-for-profit university headquartered in the heart of Dublin city.

Research mission: Research informed by clinical problems, translated into better therapies and interventional strategies for the benefit of patients.

Key Research Themes			
Biomaterials and Regenerative Medicine		Cancer	
Endocrinology		Neurological and Psychiatric Disorders	
Population Health		Respiratory Medicine	
Surgical Science and Practice		Vascular Biology	

The MSCA Postdoctoral Fellowship programme is a strategically important to RCSI.

Excellence

~200 Principal Investigators

Our internationally-recognised researchers strive to enhance human health through developing new diagnosis, treatments and interventions across multiple disease areas and by influencing policy

International networks

RCSI researchers have collaborated with over 3,800 institutions globally

Interdisciplinary research

Our academic and research staff work collaboratively, producing interdisciplinary and comprehensive research to tackle complex health problems.

Times Higher World University Ranking 2023

- **Top 250** universities worldwide and Number 2 university in Ireland
- **Number 1** in the World for SDG3 – Good Health and Well-being

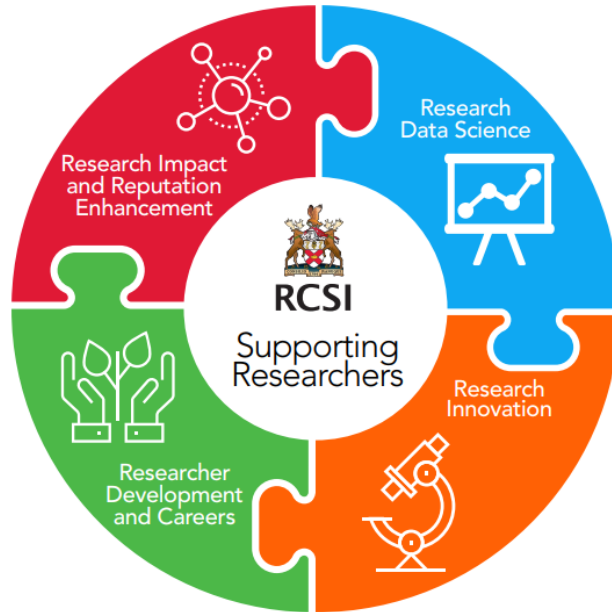

Publications

- 60% in Q1 Journals
- Field weighted citation impact 1.76 (global average = 1)
- 56% of our publications include international collaborators (global average 20%)

Impact

Career Perspectives

RCSI can offer you a comprehensive research experience that paves the way for a pioneering life of leadership in healthcare research.

Implementation

How RCSI can help!

- We have **state-of-the-art research facilities**.
- We support the **development of early-stage researchers**.
- We deliver training and support to **enable impactful and sustainable research**.
- We can support the involvement of **clinicians and patients in research**.
- We can help identify funding and **collaborative research opportunities**.
- We can ensure that research is **regulatory and contract compliant**

RCSI's research activities are sustained by an integrated research infrastructure consisting of a network of centres and core facilities

RCSI Clinical Research Facility
Beaumont Hospital Dublin.

RCSI's award-winning simulation
centre is one of Europe's most
modern simulation facilities.

MAJOR CAPITAL
INVESTMENT OPENING
DOORS 2025

“From the moment I embarked on my fellowship application, RCSI has been a partner, offering invaluable resources, mentorship, and encouragement.”

– Cansu Gorgun (MSCA PF 2022)

“I started my MSCA PF at RCSI eight months ago and it has been a great experience so far – from a welcoming team to versatile support and exciting research.”

– Petra Bencúrová (MSCA PF 2021)
