

FTMC – Research and Technology Organisation

Karolis Stašys Innovation and project manager

Karolis.stasys@ftmc.lt

5 June 2023

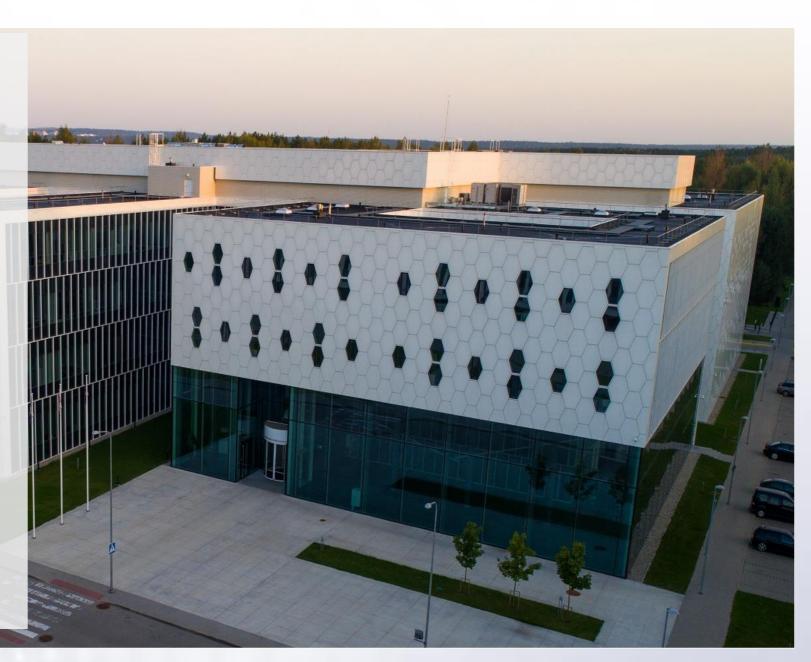

FTMC – Center of scientific excelence

FTMC (CENTER FOR PHYSICAL SCIENCES AND TECHNOLOGY) is:

- The largest scientific research institution in Baltic States.
- State owned, academically independent organisation.
- Main goal: to nurture deep tech industry by combining fundamental research with technology development.
- Cooperation with industry and other RTO's are top priority.

© Marius Iovaiša, Nereaėta Lietuva

Together with spin-off incubator:

FTMC – Center of scientific excelence

FTMC in numbers:

People

- More than 700 employees
- About 500 researchers with PhD
- 114 PhD students

Infrastructure

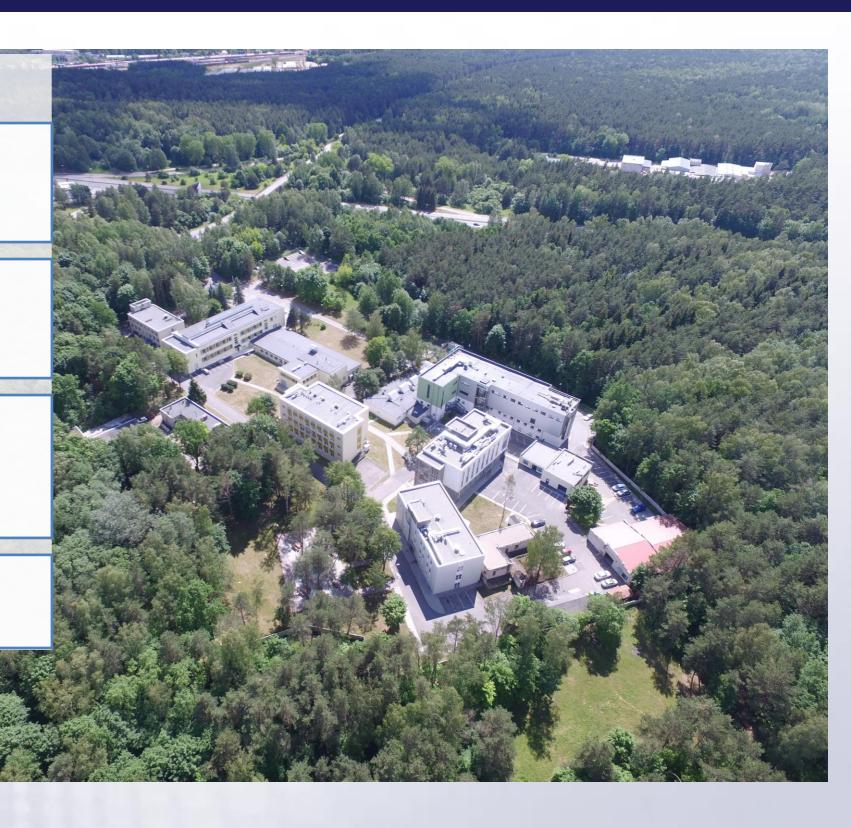

- 48 laboratories
- 5 sites
- 2 ISO 7 and 5 clean room facilities

Scientific results

- On average 242 highest category scientific articles published annually
- About 10 international patent applications submitted annually

Finance

• Budget of 21,5 mil Eur., 50% which is from national budget

FTMC – Center of scientific excelence

FTMC R&D directions

FTMC R&D activities covers all Technology readiness levels from basic research to final product with aim in these fields:

- Optoelectronics
- Environmental technologies
- Laser technologies
- Sustainable chemistry
- Nano engineering
- Textile technologies

Which contributes to:

- Aerospace
- Healthcare
- IoT
- Defence
- Society well-being
- Ecology

TRL1

 Basic principles are observed and reported

TRL2

 Technology concept or application formulated

TRL3

Proof of concept established

TRL4

 Laboratory testing of prototype component

TRL5

 Laboratory testing of integrated system

TRL6

Prototype system verified

TRL7

• Integrated pilot system demonstrate

TRL8

 System incorporated in commercial design

TRL9

 System ready for full scale deployment

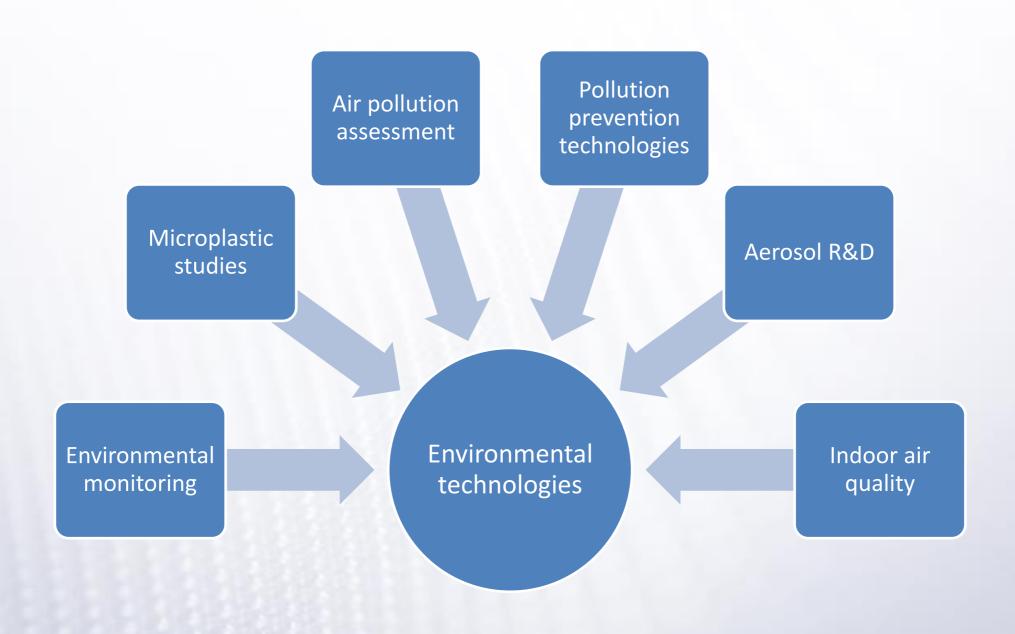

FTMC Optoelectronics

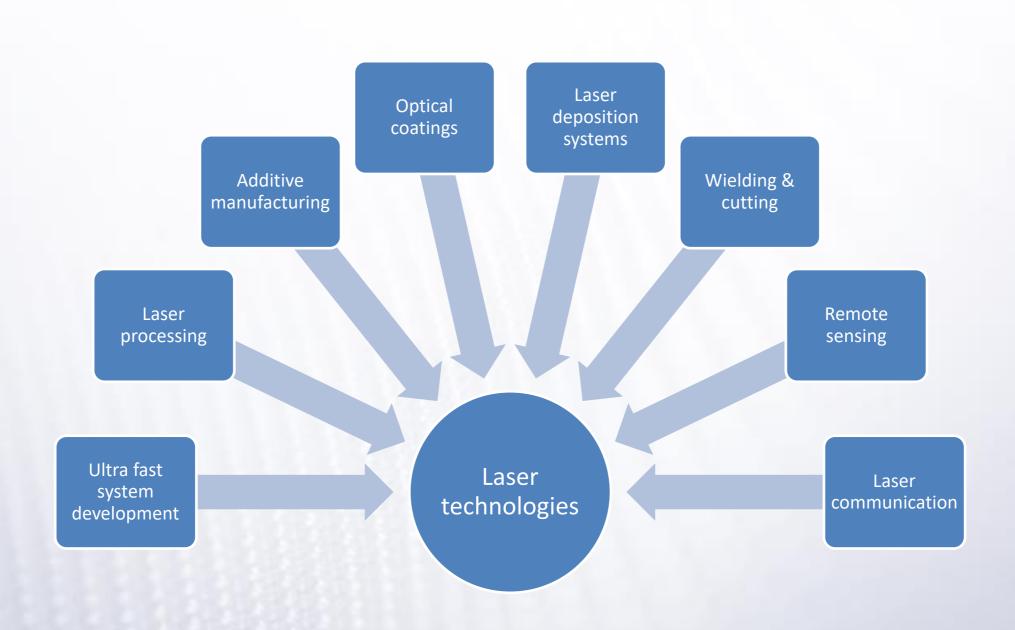

FTMC Environmental technologies

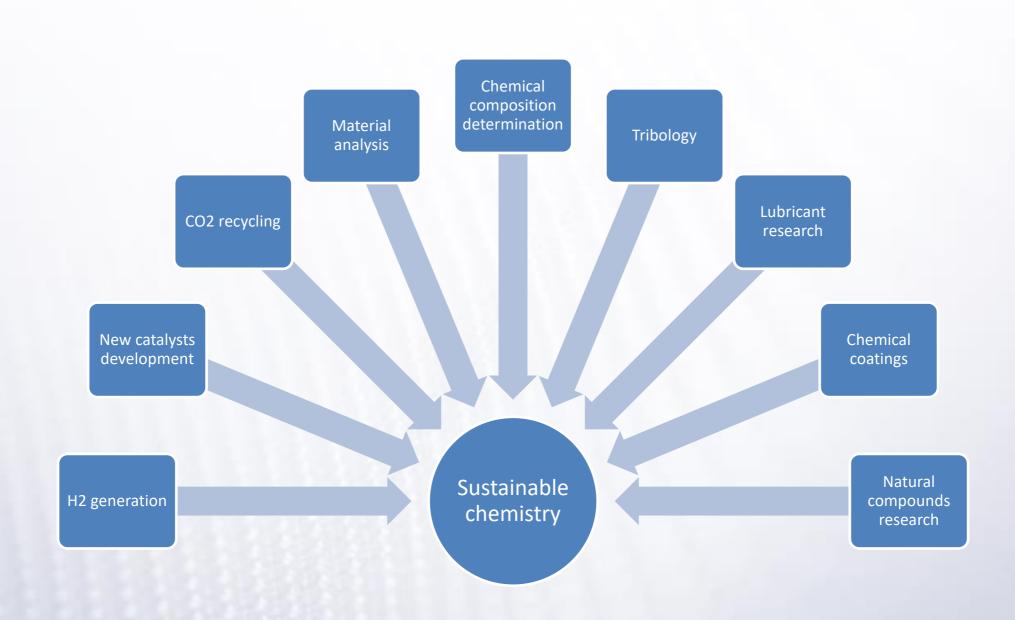

FTMC Laser technologies

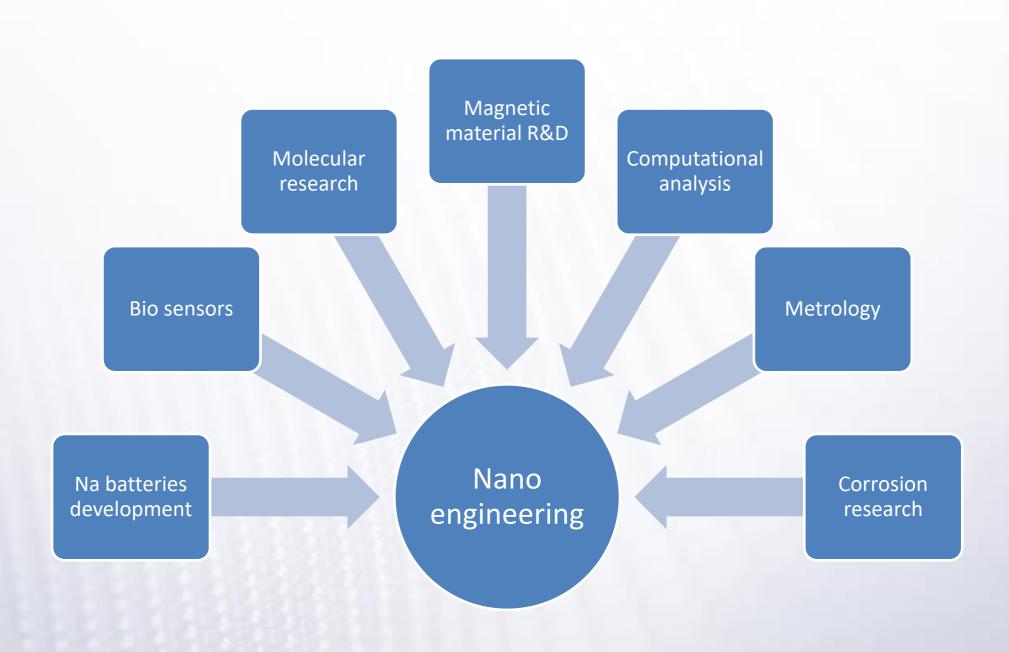

FTMC Sustainable chemistry

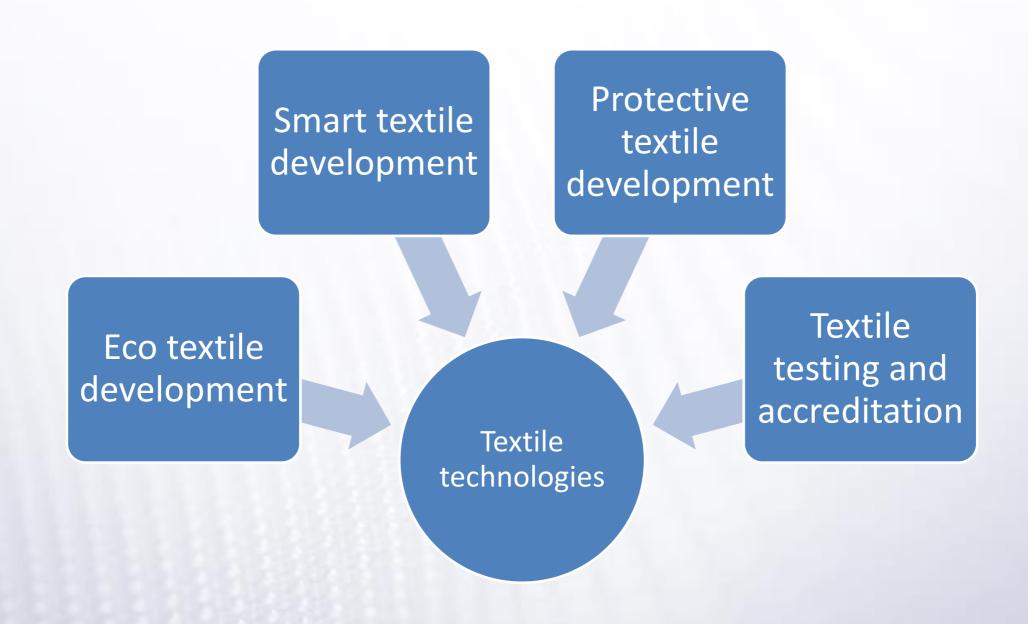

FTMC Nano engineering

FTMC Textile technologies

FTMC notable partners

We want you here

Vilnius University

MSCA PF hosting offers at Vilnius University

Ana Raišienė Research Projects Coordinator VU Research Projects Office

research@cr.vu.lt

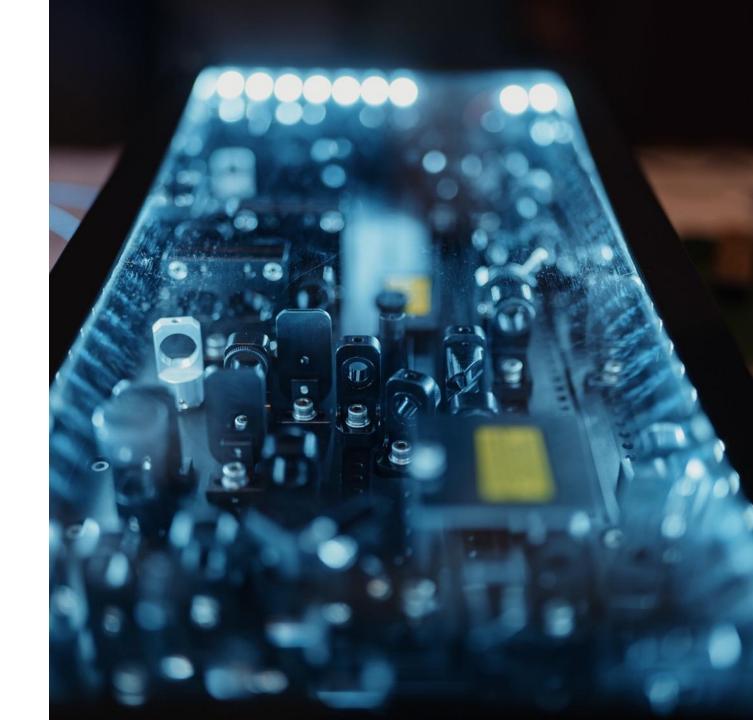

Lithuania – small country, endless opportunities

- Population: 2.801 million
- Capital: Vilnius
- EU & NATO member
- Eurozone
- Language: Lithuanian
- 85% of young professionals proficient in English
- #4 in the EU in higher education
- The highest share of women researchers and engineers in the EU (55%)
 - TOP 20 happiest country in the world

Fast-developing and innovative ecosystem

- Largest Fintech hub in the EU
- Global Business Services sector
- 50+ Laser sector companies
- Biotechnology hub
- #4 globally in the availability of digital skills

Vilnius – amazing, wherever you think it is

- Population: ~600,000 inhabitants
- 700th anniversary in 2023
- Rich history and picturesque Old
 Town, inscribed on the UNESCO
 World Heritage List
- Dynamic arts & culture scenes, modern venues, creative spaces

Costs of living

Apartment rent from €350 / month

Food (for one person) €175 / month

Beer €4

Public transport €29 / month

Cinema ticket €7

Internet 8 Mbps €15 / month

Gym membership €23 / month

Cup of coffee €3

Vilnius University

- Established in 1579
- The first and largest comprehensive university in Lithuania
- Research university
- Among the top 400 in the world (QS Rankings 2023)

#1 University in Lithuania

- **23,000** students
- 3,000+ academic staff(58% women)
- Budget: ~140 million euros

Studies

- 136 Bachelor's and integrated study programmes
- Master's study programmes
 - Science fields for doctoral studies
 - Medicine and dentistry residency programmes

International Students

Study programmes in English

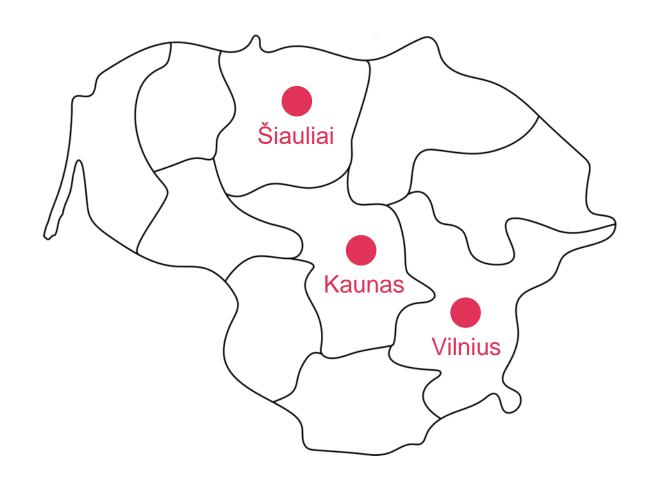

2500 International students

100/ Of all students

700+ Courses in English and other foreign languages

Campuses

Faculties' structure

Faculty of Chemistry and Geosciences **Faculty of Physics Faculty of Communication** Center for the Physics of Nuclear **Faculty of Mathematics and** Institute of Chemistry and Elementary Particles Informatics Institute of Geosciences Institute of Chemical Physics Institute of Photonics and Institute of Data Sciences and Digital Nanotechnology Technologies **Faculty of Economics and Business** Laser Research Center Administration Institute of Informatics Institute of Applied Electrodynamics Institute of Mathematics and Telecommunications Institute of Applied Mathematics Institute of Theoretical Physics and **Faculty of Medicine** Astronomy **Faculty of Philosophy** Life Sciences Center Institute of Biomedical Sciences Institute of Asian and Transcultural Studies Institute of Clinical Medicine Institute of Philosophy Institute of Odontology Institute of Biosciences Institute of Psychology Institute of Health Sciences Institute of Biochemistry Institute of Sociology and Social Work Institute of Biotechnology Šiauliai academy Institute of Educational Sciences Institute of Education **Faculty of History** Institute of Regional Development **Faculty of Philology Institute of International Relations** and Political Science Institute of English, Romance Studies and **Kaunas Faculty** Classical Studies Institute of Baltic Languages and Cultures Faculty of Law Institute of Literature and Cultural Studies Institute of Languages, Literature Institute of Applied Linguistics and Translation Studies o Institute of Foreign Languages o Institute of Social Sciences and **Business School** Applied Informatics

ARQUS European University Alliance

Opportunities for students, academics and non-academic staff:

- Seamless mobility within the alliance
- Joint academic offer
- Research networking
- Support of innovative teaching forms
- Talent scholarships
- Seed funding for joint research action
- Training of plurilingual, multicultural,
 and diversity & inclusion competences

Research Fields

- 1. Humanities
- 2. Lithuanian Studies
- 3. Structure and Development of Society
- 4. Biological and Sociopsychological Cognition and Evolution of Man
- 5. Healthy Man, Prevention, Diagnostics and Treatment of Diseases
- 6. Genomics, Biomolecules and Biotechnologies
- 7. Changes in Ecosystems, Protection, Natural Resources
- 8. New Functional Materials and Derivatives
- 9. Theoretical and Condensed Matter Physics
- 10. Laser Physics and Light Technologies
- 11. Fundamental and Applied Mathematics
- 12. Informatics and Information Technologies

R&D infrastructures & networks

Vilnius University for business

Active player in the innovation ecosystem:

- Most of research areas covered
- Interdisciplinary approach
- **160+** research groups
- 150+ patents & patent applications
- 450+ open-access R&D services
- 25+ start-up companies
- Shareholder in two science parks operating in Vilnius
- Shareholder of the Santaros Clinics and Žalgiris
 Clinics (odontology)
- Bio-incubator
- 200+ companies cooperate with us every year

Extra funding opportunities for MSCA PF applicants!

ERA Fellowships: Open to researchers of any nationality who submit European Postdoctoral Fellowship proposal to the MSCA PF call with the host institution in a Widening Country (Lithuania). MSCA PF application will be automatically resubmitted to ERA fellowships call in case the proposal fails to reach an adequate place in the ranking to be funded.

National funding: National funding scheme to finance well-evaluated MSCA PF proposals is launched. If your MSCA PF proposal will score above the threshold of 70%, you will be able to receive national funding for the implementation of your project!

Finding a supervisor for your MSCA PF project

Find yourself a suitable supervisor at VU by browsing:

- Websites of VU academic units
- Research Teams search
- VU researchers' hosting offers on <u>EURAXESS</u>

In case you need help, contact VU Research Projects Office at **research@cr.vu.lt** and we will help you look for the supervisor!

Application process

- 1. Contact the supervisor or the faculty directly to express your interest in making a joint MSCA PF application. Do not forget to provide the following documents (cc to research@cr.vu.lt):
- Curriculum Vitae
- List of publications
- Proposal summary
- 2. Request <u>a letter</u> from your supervisor endorsing you as a candidate, and send it to VU Research Projects Office (<u>research@cr.vu.lt</u>).
- 3. After receiving your supervisor's endorsement, you can start preparing your MSCA PF project proposal.

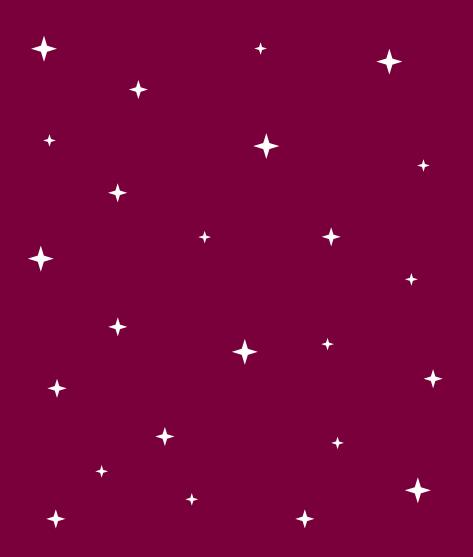

Support services at VU

- Assistance with eligibility check
- Help in finding a supervisor at VU
- Support during the preparation and submission of the MSCA PF proposal
- Individual consultations and help in finding answers to your questions
- Proposal review
- Providing guidance material with tips for proposal writing and information about VU, including on its training, support services and hosting arrangements offered
- MSCA PF Webinar, dedicated to acquainting with the rules of participation in the program, the content of the application, the experiences of successful VU MSCA PF applicants (9 June, 2023).
