

Project description for Call 09I03-03-V04 Fellowships for excellent researchers R2-R3-R4

Title of the project:

Name and surname, titles:

Category of researcher:

1. Excellence

Describe objectives of the project – they should be clearly defined, realistic, measurable and achievable in the implementation of the project.

Please briefly describe the current state in the area the project will focus on. How will the planned activities of the project address problems and challenges in this area? Why is necessary/appropriate to deal with such a project?

How does the project go beyond the currently available solutions, procedures, etc.? What makes it original and innovative?

2. Impact

Show the assumption of a positive impact on the further career of the researcher, the assumption of a positive impact on the applicant/host organization.

Explain the significance of the expected impact – on the given area of knowledge and the scientific community, on the economy, on society, on the environment.

Describe the adequacy of expected results and impact of the project – qualitative and quantitative.

3. Implementation

Quality and efficiency of the project plan, feasibility of planned activities. Describe the overall structure of the project plan, which consists of individual work packages, their interconnection, logical and chronological relation. Describe the timeline of the project, specify project duration (min 12 months, max. 24 months).

Capacities (personnel, professional, technical, infrastructure, other) of the applicant/host organization. Is the project feasible using the current IEP SAS' infrastructure?
